CUTTING KILLS HIMSELF

MEN NAMED TO FILL VARIOUS OFFICES

David Starr Jordan and Fred G. Sanborn Appointed to Game Commission

Truxton Beale Is Chosen by Governor Johnson as Regent of University

SACRAMENTO, Jan. 16.—Establishment of the fish and game commission on a self-sustaining basis is contemplated in making of appointments which were announced by Governor Johnson today.

The commission now requires appropriations of $40,000 or [illegible] from each legislature, the Governor said. It takes in about $150,000, which should be sufficient to support it.

THE APPOINTMENTS.

The appointments are: David Starr Jordan to be a member of the fish and game commission, vice [illegible] withdrawn.

[illegible] Sanborn to be a member of the fish and game commission, vice George C. Stein, now withdrawn.

"I have chosen Dr. Jordan because he is the leader of the scientific activities of the state," the Governor explained. "Mr. Sanborn was chosen for his executive ability and knowledge of the subject. I expect him to do much of the reorganizing."

TRUXTON BEALE REGENT.

In announcing the appointment of Truxton Beale of Bakersfield to be regent of the state university, the Governor announces his policy of appointing as regents only those whose [illegible] affairs would allow them to devote their entire time to the good of the institution. Mr. Beale is a wealthy philanthropist of Bakersfield.

OTHER PLACES FILLED.

Other appointments announced were: Dr. [illegible] San Diego, harbor commissioner, vice [illegible] Creelman; [illegible] Charles H. [illegible], San Diego, to be commissioner there, vice F. W. Jackson, [illegible] withdrawn; M. L. Ward, San Diego, to be trustee of normal school there, vice self, name withdrawn.

All these the Governor said were highly recommended. Mr. Ward is a former senator.

NAVY CHIEF RETIRES UNDER CLOUD

Government Puts Accused Rear-Admiral on List of Former Officers

Pacific Fleet Rent Asunder by Charges Brought Against Venerable Fighter

WASHINGTON, Jan. 16.—The application of Rear Admiral Barry has been approved by President Taft and [illegible] has been transferred to the [illegible] of the navy.

The Navy Department today received a telegram from Rear Admiral Thomas, who was appointed to succeed Admiral Barry, stating that he had assumed command of the Pacific fleet. The Navy Department issued the order retiring Admiral Barry on Saturday and advised him of that fact by telegraph.

This action was taken before the publication of the allegations that officers of the flagship West Virginia contemplated charges against the admiral [illegible] for his moral character.

It was reiterated in the Navy Department today that no [illegible] had been filed here against Admiral Barry, and that was known officially [illegible] retirement was that he desired to avail himself of the privilege granted [illegible] to retire after forty years of active service.

FACES COURT MARTIAL.

The fact that Admiral Barry has been placed on the retired list does not preclude the possibility of court martial proceedings being instituted against him in case charges are preferred. He still is a part of the naval establishment and it is stated that it would be entirely within the province of the secretary of the navy to convene a court martial to try any charges which might be presented.

Admiral Barry's [illegible] was received by the navy department by telegraph last Thursday [illegible] it was received by wire instead of mail was by no means unprecedented. Secretary Meyer approved the application on the day following its receipt.

TAFT APPROVES.

The President promptly approved [illegible] and the department telegraphed [illegible] to the admiral on Saturday [illegible] the Pacific fleet and ordering him to [illegible] in accordance with the [illegible] custom. [illegible] dates from January 11.

By operation of law Admiral Barry would have retired in October of [illegible]. His pay as a rear admiral was $8000, while his retired compensation will be three-fourths of that amount [illegible].

"He tried to choke my brother Archie to death today and would have succeeded if I had not shot him."

Distinguished Jurist Taken To the Providence Hospital

SUPREME COURT JUSTICE H. A. MELVIN, who is seriously ill at the Providence Hospital in this city.

Associate Justice Henry A. Melvin of California Supreme Court Threatened With Critical Illness

Henry A. Melvin, associate justice of the State Supreme Court, was taken to the Providence Hospital from his home [illegible] Sixth avenue late yesterday afternoon in a very precarious condition. He has a high temperature and other symptoms which, it is feared, [illegible] to a siege of typhoid fever.

This morning his condition remained unchanged and, according to those who are attending him, it may be several days before the exact nature of his illness is definitely known. He is under the care of Dr. C. D. Hamlin.

HAS BEEN INDISPOSED.

For the past week Justice Melvin has been indisposed and unable to attend to his many judicial duties [illegible] his home. His cheerful disposition and remarkable vitality, however, made him adverse to giving in and it was only as the result of firm advice that he finally consented to be taken to a hospital, there to remain until he showed some signs of improvement.

HIS TEMPERATURE HIGH.

It is difficult to say just what the matter with Judge Melvin [illegible] Dr. Hamlin this morning [illegible] may be two or three days before there is any change [illegible] condition. When taken to the hospital [illegible] his temperature was above normal and there were other symptoms which might [illegible] into any one [illegible] and it would [illegible] to say at the present time [illegible] On the other hand [illegible] in a short time [illegible]

HIS FRIENDS ANXIOUS.

Great concern has been manifested over the justice's condition since it became known that he was not [illegible] His numerous friends on both sides of the bay [illegible] the state have been making inquiries.

He is [illegible] member and [illegible] He is also a member of several clubs and other organizations. His election to the supreme bench carried with it a [illegible] majority which proved his popularity beyond measure and which was a tribute to his ability. For the last [illegible] years his strict attention to his judicial labors has been unusually continuing. In the Order of Elks he has held the office of supreme head of this organization.

[illegible] there is some change of improvement in his condition his host of friends [illegible] in an anxious state of mind and it may be several days before the nature of his illness is known.

BARRY BRINGS CAREER TO CLOSE UNDER CLOUD

Rear-Admiral Hauls Down Flag to 'Save Honor of Service;' Denies All of the Rumors

(Continued from Page 1)

made covertly against Rear Admiral Edward Barry, commander of the Pacific fleet, are correct, District Attorney Fickert is prepared to take definite action against him under a special California statute governing the alleged offense with which the distinguished naval officer has been accused by innuendo and by thinly disguised statements

Two naval officers from the West Virginia visited me said Fickert today, and consulted me regarding the present story which is going the rounds I am not prepared to say as to whether or not the accusation is true or false but I will say that in the event of it being the truth, there will be a trial under the special California statute governing such an offense If the navy authorities take action, which would be if they believed the charge true there will first be a court-martial in all probability and our grand jury investigation will follow that

BOUND ON ACTION

District Attorney Fickert intimated that whether or not the authorities held a court martial he would nevertheless take action although it is admitted on every side that the affair presents a great many delicate situations the charged offense being admittedly unprintable

Rear Admiral Chauncey Thomas who relieved Admiral Barry has so far refused to say anything for publication It is known however that despite the alleged occurrence of Wednesday and the statement covertly made in certain quarters that Admiral Barry was discovered in company with a messboy in his cabin it is known that the admiral had already requested to be relieved from duty here It is understood that Admiral Barry felt that although he held a commanding position [illegible] he rightly thought [illegible] became irksome to him It is said that for some time his request to be relieved had been in the hands of his superiors

DECLARES RUMORS FALSE

The situation with its rumors accusations and secrecy is unparalleled in the history of the United States navy The wardrooms of the Pacific fleet are astounded at the developments Barry makes a sweeping denial of the rumors declaring that he retires to save the honor of the service

According to the stories told on the cruiser West Virginia Ensign Sherwoode A Taffinder made a report to Captain Orchard of some events that had come under his observation This report is kept secret Acting upon it however Captain Orchard with Commander Victor Blue and some others of the senior officers informed Barry that it would be best for himself and the service to resign The admiral instead wrote to the Secretary of the Navy asking to be retired on three fourths of his admiral's pay of $6,000 a year There was some delay about the matter but it was reported that the Secretary of the Navy was inclined to act on it favorably Suddenly the rumors and stories broke from the confines of the West Virginia It became the common property of the men and it was all the officers could do to maintain discipline The Secretary of the Navy was apprised of the conditions and acted without delay

CHANGE QUICKLY MADE

Rear Admiral Chauncey Thomas was at Santa Barbara on his flagship the California He was ordered to proceed immediately to San Francisco and displace Barry The order was such that no time was spent in trying to find the liberty parties on shore and these about [illegible] number were left behind The California steamed into San Francisco [illegible] yesterday evening

DEPARTMENT NOT ADVISED

WASHINGTON Jan [illegible] department [illegible] Admiral E. [illegible] signed by him when he [illegible] to them at [illegible] telegraphed his application for retirement and followed it by a letter basing his application upon the fact that he had reached retirement age Admiral Barry joined the navy July 21 1865 and was entitled to retire on his own application The application was called to the attention of Winthrop and upon the record it was granted There was no intimation whatever that Admiral Barry's action was forced [illegible] disclosures at San Francisco

Guilty or not of the charges against Admiral Barry have cast a spell of gloom over the entire fleet The men under the aged officer maintain their loyal [illegible] refuse to make a denial of the accusation that men of the fleet were victims of the admiral At a meeting of officers Tuesday evening it was suggested that tactics prevalent in Germany be carried out and that a loaded revolver be sent to Barry carrying with it the implied hint that suicide alone would save the honor of the navy Wiser counsel prevailed and he was given the opportunity of resigning

Unbelievable as it would have seemed were not the assertion made by many navy officers Admiral Barry has been practically ostracized by the officers of the Pacific fleet for a considerable time

It was on Tuesday night that Ensign Sherwoode A Taffinder the officer of the deck at the hour discovered that an apprentice boy from the crew was with the admiral in his quarters

Ensign Taffinder summoned Lieutenant Commander H J Ziegemeier the executive officer of the ship and reported to him Ziegemeier called Commander Victor Blue who is chief of staff under Admiral Barry and the two entered the admiral's cabin together with Captain Orchard

UNPARALLELED SITUATION

The situation was unparalleled in the annals of the United States navy

The aged admiral—he is 62 years old—was told by his subordinate officers that nothing short of his immediate resignation would satisfy the honor of the navy

Confused the admiral begged for mercy He pleaded his years He pleaded the honor of the service

The officers left the room in silence In the wardroom they met the members of Admiral Barry's staff and the senior officers of the ship

When at 6 [illegible] yesterday morning Admiral Barry stepped ashore at [illegible] foot of Mission street [illegible] the point [illegible] stories of the [illegible] he [illegible] then continued on his way to church

BLAMES BRAIN STORM FOR MURDER

Experts to Take Stand in Defense of Frank M. Bell, Widaman's Slayer.

Question of Unwritten Law May Enter Case of Los Angeles Man.

LOS ANGELES Cal Jan 16—Experts on brainstorms and other mental disturbances will be the principal witnesses in the case of Frank M Bell a former wealthy [illegible] man who was placed on trial today on the charge of having murdered O P Widaman an attorney at Artesia a suburban town several months ago Both prosecution and defense have summoned an array of alienists and the question of conviction or acquittal will rest entirely on the testimony of the experts

The unwritten law it is said will figure in the case but temporary insanity will be the defense of Bell who alleges he was driven mad by the actions of the attorney who represented Mrs Bell in the divorce and property divisions in the case some years ago and who is alleged to be one of the principals in a mysterious shooting which occurred in Bell's apartments in a local hotel some time before the killing of Widaman

AVIATORS HURL BOMBS FROM HIGH ALTITUDES

Radley Makes Spectacular Flight From Field to Oakland Mole and Return; Brookins Thrills With His Daring

(Continued from Page 1)

Crissy's description, the 'size of a washtub"

Hitherton it has been presumed that a projectile could be dropped with accuracy but until yesterday no practicable proof of an aeroplane's ability to drop a fatal explosive had been shown

RADLEY'S GREAT FLIGHT

The flight of James Radley the English aviator, in a Bleriot monoplane from the aviation field along the San Francisco water front to Oakland as well as Walter Brookins' flight to a height of 11 0 feet in a Wright biplane were achievements of note

Radley after testing the motors of his monoplane, made a running start for the southern pylon rising from the ground midway of the grandstand Only once he made the circuit flying directly above the heads of the crowd, and then [illegible] across the marshes and [illegible] to view in the lacework of the clouds

He made straight for the ferry building, but had no more than reached the ferry when he [illegible] air stratum so cold that it almost froze his fingers on the wheel To the watchers in the city who had been warned of his approach he appeared around Hunter point skimming low over the bay waters at great speed He did not indulge in his usual dips and circles but attended strictly to the business in hand

His course took him close to the San Francisco shore line He changed his course opposite the seamen's Institute and made directly for the Oakland mole

ALONG OAKLAND SHORE

Arriving at Oakland mole he veered southward continuing over the Western Pacific terminal and the Alameda mole to the end of the estuary where he again altered his course returning to the grandstand just thirty three minutes and fifty-nine seconds after leaving it He was stiff with cold when he climbed from the machine and his teeth chattered as he answered those who tried to obtain from him the details of his flight

Brookins was accompanied on his flight by Lieutenant J P Walker Jr Eighth United States Infantry of the Presidio at Monterey who carried a camera with him and at the height of 1,580 feet took photographs of the scenes below which will be used in army reports on the aviation meet This was the first flight Lieutenant Walker ever made in an aeroplane and it proved a thriller

Brookins executed his spiral dip in which the aeroplane [illegible] several hundred feet above the ground Suddenly one wing will drop until the plane is at an angle of about 55 or 60 degrees out of the horizontal The rest of the machine tumbles after, rights itself for less than an instant, and then the other wing dips, and like a corkscrew the dizzy drop is continued

When near the earth the aviator rights his planes and settles gracefully

CROWD FASCINATED.

The crowd stood fascinated and enthralled at the daring of the aviator who as a climax of his exhibition dipped and turned over the center of the field and performed a series of spectacular spiral dips and turns and when finally he made a landing the crowd cheered him until he had left the field

Charles F. Willard, with his modified Curtiss machine, followed but as the craft showed signs of becoming somewhat unmanageable, he descended and gave up sailing for the afternoon after a single circuit of the field and a couple of straightway [illegible]

Ely and Curtiss took the air almost simultaneously, on the next start and for six minutes raced their machines around the course together and took a few side excursions off toward South San Francisco and back [illegible] the grandstand towards the ocean

Instead of returning to the aviation field from the flight, Glenn Curtiss made his landing at the Tanforan track where he is storing his machine

Brookins made the last professional flight of the day, carrying as a passenger H L Oweney of this city who purchased a Wright machine a day or two ago

BEACHY WINS HONORS

The novice events followed the professional meet Lincoln Beachy won his honors yesterday morning by a straightaway flight of almost a mile in a Curtiss machine He repeated the attempt so successfully yesterday afternoon that he completed two full circuits of the course in professional style

Sidney Leggo in a machine built in San Francisco for himself and Marshall Giselman made two short skimming flights straightaway Giselman also tried one flight with the machine but did not succeed in leaving the ground F J Devilla in the San Francisco built Lambruth multiplane made several attempts to fly, but met with failure Thaddeus Kerns hauled his biplane into the course but made no attempt to fly because of the crowd that had collected on the field

MAN SHOT WHILE FIGHTING ROBBER

One Bullet Grazes the Head of Victim; Police Have Suspicion.

A mysterious burglar took three shots at D J Hampton of 6320 Whe[illegible]ler street when he returned to his home last night narrowly escaping murdering him with a bullet that [illegible] its way through the crown of his derby hat Hampton fled to the police and returned with Inspector Charles Bock and Patrolman [illegible] The burglar had disappeared taking with him a purse containing $[illegible]

The case is an unusual one and the police are inclined to believe from Hampton's actions that something is being concealed and that the account of the burglary may not be entirely bona fide Hampton told the following story of the attempt

I left my house about 11 o'clock last night As I [illegible] the rear door as I went [illegible] 12:45 I returned and found the door open I thought [illegible] and started to enter the house when suddenly three shots rang out one going through my hat and just grazing my hair I turned and ran down the stairs and reported the matter to the police

FINDS BULLET IN DOOR

Inspector Bock found the bullet [illegible] in the door [illegible] screen door Nothing had been moved in the house but according to Hampton a purse containing [illegible] gold had been stolen from the bureau in his bedroom

A burglar last night climbed over the iron fence in front of the store of Robert Kuerzel at Seventh and Washington streets smashed open the cash register and stole $6 The burglary was committed between midnight and [illegible] in the morning

An amateur burglar broke into three rooms at 961 Broadway last night but obtained nothing of value Entrance was effected through rear windows to the rooms in each case the rooms of C D Ken[illegible] C H Patterson and L W Watson being the ones entered

Other thefts and burglaries were as follows

Harry McCutcheon 404 Fifth street tan leather grip and clothes valued at $26 taken C C Meers 13[illegible] avenue carpenter's tools valued at $10 taken from city hall [illegible] joining city prison and [illegible] department [illegible] avenue purse containing [illegible] taken Arthur Caine Emeryville clothes valued at $15 taken [illegible] Whittaker 10[illegible] Forty-fifth street $[illegible] taken from him on car by pickpocket

WELL DIGGER IS SERIOUSLY BURNED

Explosion of Gasoline by Accident May Have Fatal Result.

BERKELEY Jan 16—Covered with burns received from exploding gasoline Frank Cilker a well digger of Los Gatos was taken to Roosevelt hospital this morning and is not expected to recover

He was engaged in boring a well at the residence of Duncan McDuffie on the tunnel road in Claremont when he poured gasoline on a camp fire today The contents of the can became ignited and an explosion followed Cilker's clothing began to burn and before the flames could be extinguished three fourths of his body had been blackened His hands were charred

HURRIED TO HOSPITAL

Robert Bousfeld who lives near the McDuffie place hurried to the scene in an automobile and took Cilker to the hospital Although the burns are called superficial they cover such a large area of the body that his recovery is doubtful

When Cilker picked up a large can of gasoline and started to pour some of the contents on the fire his companion gave a warning cry but it was too late The flames leaped as high as Cilker's head and the can exploded

The other workman whose name is not known at the McDuffie residence buried his hands in rolling Cilker on the ground

The injured man is about 35 years old and unmarried His mother and a brother who live in Los Gatos have been notified and are on their way here

GOVERNOR'S AIDES RESIGN OFFICE

Gillett's Staff Leave and Johnson Will Have a Smaller One.

NAME COMMITTEE TO CONFER ON HIGHWAYS

Supervisors Act on Bridge's Motion at This Morning's Meeting.

IMPORTANCE OF ROAD BUILDING SET FORTH

County Officials to Look After Share of Appropriated $18,000,000.

At the meeting of the board of supervisors this morning Supervisor Bridge called up the subject of the State Highway Commission created to build state roads throughout the state for which the state bonded itself in the sum of $18,000,000 at the last general election

We have been building boulevards and good county roads in this county and provided for the extension of the foothill boulevard to the county line and I think it would be proper to appoint a committee consisting of two members of this board and the county surveyor to confer with the State Highway Commission to induce that body to incorporate the boulevard in the state road system and contribute toward the expense of its completion I think if the matter is properly presented to the commission that boulevard will be made a part of the state road system and that we will be able to get some of the money raised through the state bond issue to help out the county in completing the boulevard to the county line

County Clerk Cook stated that the State Highway Commission would have control over the $18,000,000 voted by the people for state road construction and it would doubtless solicit information from local legislative bodies throughout the state It is reasonable to assume he said that the information which the commission will thus gather will carry much weight with it

Mullins moved and Foss seconded the motion that the committee of conference consist of Chairman Horner Supervisor Bridge and County Surveyor Haviland The motion was adopted unanimously

GOSSIP FROM LEGISLATIVE HALLS AT CAPITAL

LABOR BUREAU AT CAPITAL WORKS FOR BILLS

Measures Favoring Workingman Sought by Delegates of Unions.

(SPECIAL TO THE TRIBUNE.)

SACRAMENTO, Jan. 16.—The most complete bureau in the interest of legislation in behalf of the working people which has ever been formed here has opened headquarters at Tenth and K streets and will remain during the session. In it are represented all the railroad organizations, the State Federation of Labor and the San Francisco Labor Council. The representatives of the several railway organizations have formed what is known as the Railway Brotherhood Legislative Board. The organizations in this board are the Order of Railway Conductors, the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen and the Brotherhood of Railway Trainmen. The officers of the board and their places of residence are as follows: J. M. Murphy, Brotherhood Railway Trainmen, San Francisco, chairman; Will F. Lemon, Order Railway Conductors, San Bernardino, vice-chairman; J. F. McCarthy, Brotherhood of Locomotive Engineers, San Francisco, secretary; J. F. O'Brien, Brotherhood of Locomotive Firemen and Enginemen, Bakersfield, treasurer.

Sharing quarters with these organizations are the representatives of the two other organizations as follows: California State Building Trades Council and the San Francisco Labor Council, the former of which is represented by L. P. Leavitt and the latter by John J. Nolan.

WANT UNIFORM LAWS

It is the intention of the members of all these organizations to remain here during the session and work for the several bills which they feel will aid their fellow workmen to benefit their condition and against those measures which may be injurious to them.

The representatives of the railwaymen are working under instructions from the headquarters of their several national organizations which are engaged in the effort to secure uniform laws affecting the men who are engaged in the various departments of railway life in the several states of the union. The manner of introducing and carrying the several measures through the legislature in the various states is left to the legislative board in those states. Among the bills which the board are referred to seeks to secure the passage of in this state are the following:

The full crew bill which has been introduced in the senate by Senator Boynton. This bill calls for on a passenger train of more than four cars one engineer, one fireman, one conductor, [illegible] trainmen; on freight trains one engineer, one fireman, one conductor [illegible] trains of over [illegible] cars [illegible] brakemen.

OTHER REQUIREMENTS

This bill also requires that every [illegible] ... [illegible] experience [illegible] railroad [illegible] brakeman [illegible] required by [illegible] railroad [illegible] rules [illegible] with all [illegible] the running [illegible] safety.

BEATTY BILL HITS HARD AT LOAN 'SHARKS'

Pawnbrokers and Other Financial Agencies May Be Regulated by Law.

(Special to THE TRIBUNE.)

SACRAMENTO, Jan. 16.—If the bill of Assemblyman Beatty of San Francisco becomes a law there will be a radical change in the manner of conducting pawnshops of this state as well as of those financial agencies which loan money.

It is proposed to place these institutions to a certain extent under the direction of the commissioner of banking with a view to preventing them from charging exorbitant interest upon loans. For years pawnbrokers, salary loan and chattle mortgage sharks have been charging any rate of interest they chose to insist upon. Now that the Beatty bill proposes to regulate the rate of interest, the money loaners of the character referred to are besieging the legislators here for information on the subject, letters being received by the latter as also by the officers of the various houses.

The bill provides that the loan concerns referred to before the first of next July shall file with the superintendent of banks Alden Anderson the name of their several concerns if corporations, the names and residences of the officers and directors, the place of business, the amount of paid up capital, the amount of loans outstanding on the day preceding the filing of the information and a full schedule of the rates of interest charged on all loans together with a full statement of each and every charge other than interest in connection with the making of each loan.

BANK LICENSE

After July 1 next it will be unlawful for any person to loan money in the several ways referred to without a license from the superintendent of banks. It will also be unlawful for any person or corporation so licensed engaging or having an interest in any other business in the same premises. The superintendent of banks is to inspect the books of these concerns from time to time and prescribe the form of accounts and the periodic reports which may be required.

The superintendent of banks is also to determine what is a reasonable rate of interest and that will be the maximum legal rate that may be charged on loans of the kinds described.

The superintendent of banks may also cancel the certificate to do business of any loan concern which fails to conform to any of the requirements of this act, and any person who does business without this certificate or license shall be deemed guilty of a misdemeanor. The license fee is to be determined by the same official. This fee need not be uniform throughout the state. It shall be adapted to the locality in which the business is conducted.

DAILY REPORTS

On the request of the superintendent or chief of police the superintendent of banks may authorize in writing a certain number of local police officers to inspect the records of the loans made and the superintendent of banks shall also require loaning concerns to make their reports daily or otherwise to the chief of the local police as may be considered proper and in the public interest.

The superintendent of banks is to make an annual report to the governor and legislature with recommendations for additional legislation.

PLANS BEAR FLAG AS STATE ENSIGN

Senator Holohan Would Pay Tribute to Men of the Republic.

SACRAMENTO, Jan. 16.—Senator Holohan of Watsonville wants to honor the men of [illegible] who sought to protect themselves under the symbol of the new republic of the Pacific Coast which has since been known as the Bear Flag, but which was no longer required after the Stars and Stripes extended their protection over this then sparsely settled part of the country.

The memory of the pioneers who raised the [illegible] rude standard in those troublesome days has since been honored by the Native Sons of the Golden West in whose every meeting place the Bear Flag is to be seen.

Senator Holohan as a consequence desires to have that flag made the State flag of California. He wants this done as a tribute to the pioneers because as he understands it, [illegible] every other state [illegible] flag of its own.

The [illegible] length equal to one and one half its width. The upper five-sixths are to be white field and the lower sixth is to be a red stripe. In the upper left hand corner of the white stripe is to be a single red star and at the bottom of the white field are to be the words "California Republic." In the middle of the white field there is to be a grizzly bear on a green plot.

LEAPS EIGHT STORIES TO INSTANT DEATH

ST. LOUIS, Jan. 16.—R. H. Whitmore, aged 68, leaped from a window in the eighth story of the Marquette hotel, killing himself instantly. Despondency over his continued illness and the death of his wife who was the daughter of George Knapp, one time publisher of the St. Louis Republic, were given as the cause of the act. Whitmore was a member of one of the wealthiest St. Louis families.

[illegible] check does not make its appearance for a number of days after it ought to have been received and as a consequence a great deal of annoyance and embarrassment are experienced. It is also insisted on that the payment shall be in cash or in negotiable paper.

A final measure seeks to do away with the removal of obstructions on either side of the tracks and the establishing between tracks of a sufficient space to enable trainmen to work without endangering and losing their lives. The men [illegible] of the bureau say that there have been thousands of lives lost by men being struck by water pipes, oil pipes, mail cranes, coal chutes and a number of other contrivances which are placed too close to the track and which it is impossible for a train man to escape.

WOULD SELL EGGS BY POUND IN CALIFORNIA

Poultry Men Behind Proposed Law to Change Methods of Dealing.

(Special to THE TRIBUNE.)

SACRAMENTO, Jan. 16.—Why not sell eggs by the pound?

That is the question which the poultry and egg men of Alameda county are now asking.

Senator Strobridge comes from Hayward and the people of that locality have asked him to introduce a bill in the legislature which will compel all poultry and eggs consumed in this state to be sold by pound rate.

Accordingly this morning Senator Strobridge, in response to the wishes of his constituents, introduced a bill in effect as follows:

SOLD BY POUND

All poultry produce, tame or from a wild state of nature, shall be sold in the state of California by pound weight avoirdupois.

Chickens, turkeys, ducks, geese, guinea fowl, pigeons, pheasants produced in or introduced into the state of California by interstate commerce shall be sold by and from the hands of producers, retailers and wholesalers by United States standard weights avoirdupois.

All eggs of chickens and ducks for consumption produced in or introduced into this state by interstate commerce shall be sold and bought by tradesman and consumer by pound weight avoirdupois.

Any person or persons or corporation selling for food any of the articles mentioned in this act contrary to the provisions thereof shall be guilty of a misdemeanor and on conviction shall be fined not less than $2 nor more than $50.

The act is to be in force on and after September 1, 1911.

BEHIND MOVEMENT

All the state poultry associations, said Senator Strobridge, are behind this movement. They desire to have a more uniform method of selling poultry and poultry products. All other farm products, grain, hay, hogs, steers, beets, cabbage, fruits and so forth are sold by land weight and why not poultry and eggs?

The poultry growers are up against it with [illegible] All sorts of prices [illegible] There is no uniformity in fresh cold storage or [illegible] prices. If a law is enacted to have all poultry products sold by the pound then the man with a dozen large or small chickens or eggs [illegible] that he is entitled to for the labor of producing the stock.

I have no doubt that there will be some fighting along this line of the cold storage men and especially the commission houses, but I am satisfied that all the poultry association men will favor the project.

CAMINETTI AGAIN JUDICIARY MEMBER

Solon Reappointed to Committee at Last Meeting by President Wallace.

(Special to THE TRIBUNE.)

SACRAMENTO, Jan. 16.—Senator Caminetti is again a working member of the senate committee on judiciary. In the early days of the session he declined to serve on the committee on the ground that he wished to devote to the consideration of important matters of legislation the time which he would spend in considering measures before the committee in question.

At the last minute President Wallace of the Senate reappointed him to a place on the committee referred to, the appointment having been made at the request of Senator S[illegible]son, who is chairman of the committee.

There was an interesting little controversy this morning between Deputy Sergeant-at-arms McCall of the Senate and Sergeant-at-arms Whyte of the Assembly [illegible] with a large box which has been used for the purpose of bringing the bills to members in [illegible] the legislative chambers. [illegible] McCall claimed it as belonging to the Senate side. Whyte said that he had been told that the thing belonged to the Assembly. McCall said that he had been in the capital for a dozen of sessions and that he knew the truck belonged to his side of the building. But Whyte declared that he would let the vehicle out of his control only when McCall produced proofs that the Senate had purchased it and McCall was forced to leave the cart in the hands of the sergeant at arms of the Assembly.

ARMOUR PACKING COMPANY WILL PENSION EMPLOYES

KANSAS CITY, Mo., Jan. 16.—Employes of the Armour Packing Company over 60 years of age are to be pensioned according to a statement made by C. W. Armour of this city last night.

"We have such a plan in contemplation in all the branches of our establishment," Mr. Armour said, "but just how it will be applied has not been definitely determined."

BEST PRESCRIPTION FOR KIDNEY TROUBLES

The kidneys and bladder require more attention and care at this time of the year, especially during extremely cold spells. Such symptoms as backache, rheumatic pains, frequent, scanty or painful urination, highly colored or scalding urine, pains in the groin, dull pains in back of head, dizziness, irritability, all are plain signs of kidney trouble. Prompt attention and treatment should be given to avoid the worst forms of kidney disease which almost always result seriously. The following prescription comes from high medical authority and is known to be reliable. Half ounce Murax compound, half ounce fluid extract Buchu, six ounces best gin. Mix thoroughly and take one to two teaspoonfuls of the mixture after each meal and at bed time. The ingredients of the above prescription can be had of any druggist or the gin can be obtained from any liquor dealer.

SOLON BALKS AT LIFE TENURE BILL

Murphy of Trainmen's Board Declares Measure Will Have a Hard Fight

SACRAMENTO, Jan. 16.—"Assemblyman Beatty of San Francisco will have some difficulty in securing the passage of his bill giving a life tenure to judges of the superior court," said Chairman Murphy of the Railroad Brotherhood Legislative Board this morning. "This is no time for the introduction of a bill of that kind, not even with the recall within the reach of people. The recall might do a great deal as between political parties but so far as we are concerned even while we might be able to secure the necessary signatures for a petition for that purpose we might not be able to do what could be done by people in a political fight.

"All that our people want is a fair and honest judge and such a judge should be elected so long as he continues to be a fair and honest judge. But it cannot be said that all those who might be on the bench at the time such a law should go into effect would be of that kind and there is no reason that I can see why a man who is not that kind of a judge should be on the bench at all and especially for life. There is no monopoly of honesty in the legal profession or in the judiciary and we are in favor of a tenure of office which will give us a chance to show at the polls the men who we think are worthy of being on the bench."

ROSEBERRY MAKES HIS BILL PLAIN

Says County Employes Need Not Fear Action of His Measure.

SACRAMENTO, Jan. 16.—"There need be no fear," said Senator Roseberry today, "that all the employes in the offices of the state as well as those in the several counties are to be thrown out of employment or compelled to undergo civil service examination for the purpose of retaining them in the event of the passage of senate bill No. 3 providing for civil service which I have introduced in the senate.

"There has been a great deal said along that line in the last few days but I want to say that there is nothing in it. [illegible] the measure. I had no desire to [illegible] a change [illegible] It was not [illegible] when the [illegible] law of the United States went into effect and there is no reason why the commission should be [illegible] the case in this instance.

"I am satisfied that the bill can be [illegible] that it [illegible] anything in it which leaves the impression that the attaches of the various offices are to be disturbed. It is [illegible] one and I [illegible] that whatever [illegible] to create that impression will be removed because it is the purpose of the bill to certify all the attaches [illegible] employes of the public at the time the bill goes into effect to the commission [illegible] civil service employes so that they will be no fear on that score."

WORKMEN BURIED IN LISBON EXPLOSION

LISBON, Jan. 16.—An underground explosion of gas [illegible] terminal last night caused much alarm. Workmen were seriously burned and considerable damage to property in the vicinity was done.

The explosion was due to the gas main having been cut by the gas house workmen who are on strike or by their sympathizers. The railroad service continued today as usual.

OAKLAND MAN JAILED FOR GIGANTIC FORGERIES

Charles H. Everett, Known as Roy Thorpe, Faces Charge of Wholesale Swindling

HOT SPRINGS, Ark., Jan. 16.—It developed today that the tale of a negro bellman at a local hotel led to the arrest yesterday of Charles H. Everett, who is charged with having obtained $1800 from the Peoples Savings Bank of Seattle and for whom detectives have been searching through a half dozen states.

Four men occupied the room according to the negro and when he was summoned to bring them liquid refreshments he saw huge stacks of bills on the bed and chairs.

When the police arrived the man had disappeared but memorandum were found showing various groups of figures. The aggregate $286,000 had been divided into four parts. Circulars brought bank detectives here post haste and the arrest of Everett, who had engaged the hotel apartment, followed.

According to the detectives Pacific coast banks have lost heavily recently through the circulation of fraudulent papers and other arrests are declared probable.

OPERATED FROM OAKLAND

Charles H. Everett formerly was a resident of Oakland where he was known as Roy Thorpe although he used several other aliases. Using Oakland as a base of operations he victimized several local banks about a year ago, cleaning up about $5000. From here he is believed to have drifted to Portland, going from there to Reno and Sparks, Nev., and finally winding up in the middle west, where he was captured. In his movements around the country he left a trail of bad paper behind him, all of which was negotiated either by Everett or by confederates through profitable and original methods.

Everett or Thorpe, as he was better known during his stay in this city, was one of the most cunning swindlers the banks ever had to contend with, according to the police and Superintendent Fields of the Pinkerton detective service. By drifting from place to place and working with the aid of confederates stationed in different cities he managed to elude the authorities for a year or more after leaving Oakland for Portland.

Said to be a member of a Berkeley family, Thorpe succeeded in ingratiating himself into the confidence of local bank [illegible] and it is believed too that some Oakland financial institutions have had experiences with him.

Among the San Francisco banks he is said to have mulcted for huge sums are the Bank of California, the Anglo London and Paris and the Metropolis Trust and Savings. In Sparks, Nev., he was known as Gadd, while in the northwest he assumed the aliases of Reynolds and Sewell.

One of his confederates was known as Miss Goldman, alias Rose [illegible]orelli, and another as J. A. Ross. In some instances where the drafts were forwarded from one city to another his confederates managed to negotiate them and mulct the bankers still further. He is said to have obtained almost as much money through his fraudulent schemes between Sparks and Reno as he did here.

FORGER'S METHODS CUNNING

SEATTLE, Jan. 16.—C. E. Everett, the captured forger who is a college graduate, is said to have swindled the Peoples Savings Bank out of between $1800 and $2000. Appearing at the bank under the name of Roy B. Thorpe he is alleged to have deposited $500 and asked to be directed to a reputable attorney in whose hands he placed a note on some man supposed to be in Ketchikan, Alaska. Then going to Alaska himself he is said to have met the note, paying it under the fictitious name, obtaining a draft on a New York bank through the Miners and Merchants bank of Ketchikan.

In obtaining this draft from the Ketchikan bank he secured the cashier's signature and it is charged that his signature was forged on other bogus drafts on the New York bank which Everett cashed at the other cities.

Returning to Seattle from Alaska he received the value of the fictitious note which he had given the lawyer to collect and is accused of cashing one of the bogus drafts. Then he withdrew his $500 deposit from the Peoples Savings Bank and disappeared.

WORK EXTENSIVE

This method he used throughout the country. So far as known the Peoples Savings Bank was the only one victimized in Seattle.

Using the alias Robert Newell and W. F. Miller in Tacoma Everett is accused of having taken $[illegible] from a bank there. Under the aliases of Ja[illegible] Evans, L. C. Conway, George S. Simpson and W. F. Goode he is alleged to have cleaned up approximately $1,000 from three banks in San Francisco in 190[illegible]. He is accused of getting about $2300 from the Merchants National Bank of Portland, between $[illegible] and $[illegible]000 from the Boise National Bank, the J. L. [illegible] Park and the Third National Bank at Walla Walla, Wash., $3000 from the Bank of Sparks at Sparks, Nev., and $5000 from a Reno, Nev., bank.

Sleuth Roley Holst will go to Olympia to obtain requisition papers from Governor M. E. Hay for Everett. It is the intention of the authorities to try Everett here on the charge against him in connection with the alleged swindling of the Peoples Savings Bank.

YOUTH WILL TOUR ORIENT IN AIRSHIP

Clarence H. Walker Purchases "Model 30" Aeroplane From Curtiss.

SAN FRANCISCO, Jan. 16.—With a view to touring the Orient in an aeroplane, Clarence H. Walker, the youthful son of the late millionaire David F. Walker, has purchased from Glenn Curtiss one of his model 30 machines. The young scion of the Walker house is to take lessons in flying from Curtiss and as soon as he becomes expert in the art of managing his new air vehicle he intends to start on his aerial journey and at the same time take up aviation as a business.

The Curtiss 30 is snowbound somewhere in the Sierras but immediately upon its arrival it will be sent to the country place of the Walkers in San Mateo county, where the first lessons in aviation will be taken.

WILL HAVE COMPANION

Associated with young Walker in the venture to tour the Orient and give flying exhibitions is D. A. Rastould of Salt Lake, also a young man. For some time Walker has been making his home in Salt Lake for a part of the time and recently he completed the construction of a flying machine there. One or two flights were attempted but they were not very successful owing to some defect in the machinery and then bad weather came on, preventing any more experiments.

Walker's present plans are to start for Honolulu about a month. Besides the Curtiss machine he will take a [illegible] so that in case of accident he will [illegible] against being prevented from keeping his exhibition contracts. From Honolulu Walker and Rastould will go to the Philippines and thence to China and Japan.

SENATOR ALDRICH GOES TO WASHINGTON TODAY

WASHINGTON, Jan. 16.—Senator Nelson W. Aldrich of Rhode Island, who has been ill here for several weeks, will leave Washington this afternoon for the South. Until two or three days ago he thought it would be necessary to seek a warmer climate, but it is said that a severe old lung trouble [illegible] that he decided to go to Carolina.

The Feeders of New England

The men who supply New England with food are the Wholesale Grocers.

Last Autumn 76 of them went on an excursion and after returning home sent us a testimonial that is very highly esteemed. Many of these famous firms have been selling our products for 12 to 15 years, but have not heretofore inspected the pure food works.

To The Postum Cereal Co., Ltd.,
Battle Creek, Michigan.

Greeting:

We, the undersigned Wholesale Grocers of New England, desire to express our thanks and appreciation for the courtesy, hospitalities and entertainment offered to us during our recent brief visit to Battle Creek.

We were more than pleased and gratified at the methods, cleanliness and extent of your works, in the production of the food products—Postum Cereal, Post Toasties and Grape-Nuts. We need not speak of their world-wide reputation and health-giving qualities, for that is already established by their popularity.

"There's a Reason"

We assure you of our hearty co-operation in your behalf and our best wishes for your continued success.

NILE CLUB MAKES MERRY AT DINNER

Almost 150 Members Present at Annual Feast of Organization.

Almost 150 members of the Nile Club sat down to the organiation's annual dinner Saturday night, with feast, song and story on the menu.

H. C. Capwell, who has been president of the club for the last two years, presided and introduced the several speakers, including Charles E. Snook, Frank W. Bilger, Dick Ayres, Clarence Crowell, F. A. Leach, Jr., Ben Woolner and A. A. Denison. The talks were along the general line of club spirit and also the advancement and prominence being attained by Oakland and the identification of the Nile Club's members with the progress of the city. The evening was enlivened with some clever songs and stories. A feature of this part of the program was a speech by Walter S. Mackay, president of the Chamber of Commerce, who touched particularly upon the close ties binding the principal commercial organizations of Oakland and the club.

REMEMBERED BY FRIENDS.

Mr. Capwell was presented with a large and handsome silver punch bowl by the club members, in recognition of his work for the organiation during his presidency. The presentation speech was made by Frank K. Leach Jr., the newly elected president. The inscription on the bowl reads: "To our president from the Nile Club." The bowl was filled with the punch for which the club is famous, and during the toast which followed Capwell took occasion to thank the members of the club for their generous support of his administration and to prophesy great success for the organization under its new president.

About twelve of the members of the club took out life memberships last night, and the proceeds will be devoted to the erection of a spacious Egyptian clinks hall and other important additions which the club will inaugurate within the next few months. Among those taking out life memberships were Walter S. Mackay, Dick Ayres, Clarence Crowell and W. B. Frick.

THREE LYNCHED BY ANGRY MOB

Fifty Masked Kentucky Men Storm Jail and Capture Negro Trio.

SHELBYVILLE, Ky., Jan. 16.—Fifty masked men stormed the Shelby county jail here, seized and hanged three negroes, two of whom were charged with insulting white women and the third under sentence to hang for the murder of a negro woman. Bodies of two of the negroes, Gene Marshall and Wade Patterson, have been found, but that of the third, Jim West, is still unaccounted for, although he was seen in the hands of the mob with a rope about his neck.

According to Ernest Hornback, deputy jailer, the mob appeared at the jail at 2:10 o'clock yesterday morning, and it was 3:25 o'clock when they took the three negroes away.

The two bodies recovered were found about a quarter of a mile apart. That of Marshall was found hanging to the bridge over Emminance pike, near the jail, while that of Patterson was found in Clear creek. Patterson, it is said, attempted to escape from the mob, was shot and his body thrown into the creek.

According to Hornback, Jailer Edward Thompson had the jail keys when the mob appeared and later when it became more insistent Hornback admitted the men to the jail office.

NAVY CAPTAIN TAKEN TO VALLEJO HOSPITAL

SAN FRANCISCO, Jan. 16.—On account of the serious illness of Captain Anderson the United States gunboat Yorktown picked up Dr. Trotter, the chief quarantine officer upon her arrival yesterday morning from Amapala and after receiving pratique, steamed direct to Mare Island, where the sick commander was taken ashore to the hospital. Captain Anderson is said to be suffering from cancer. The Yorktown has been doing patrol duty along the lower coast for several months and was relieved by the gunboat Vicksburg.

The torpedo boat Stewart, Ensign Newton in command, which was rammed by the torpedo boat Paul Jones, Ensign Almy, during the night maneuvers in Santa Barbara channel last Tuesday, came in yesterday in company with the cruiser California. The Stewart will proceed to Mare Island for repairs. The torpedo boat was saved from sinking after the collision by her bulkheads and limped back to port under her own steam.

WROTE ERDMAN ACT.

ALLENTOWN, Pa., Jan. 16.—Former Congressman C. J. Erdman died last night at his home here after a lingering illness. He was 64 years old. He served two terms in Congress from the Thirteenth Pennsylvania district, and was the author of the Erdman act, which applies to arbitration in labor disputes.

How Long Are You Going to Continue Coughing and Weakening Your System?

No Need of It, When You Can Make a Pint of Lasative Curative Cough Syrup Cheaply.

The only way to cure a bronic or acute cold on the lungs, sore throat, bronchitis, etc., is to get a medicine which will at once relieve the fever and congestion responsible for the cough (which is only a symptom of inflammation) and then proceed to restore the blood and membranes to a health state. A fine laxative, curative cough syrup, which will delight any one who tries it, can be made at home cheaply. It beats ordinary cough syrups a hundred to one because it does not sicken or constipate.

Obtain of your druggist, or have him order from the wholesaler, 2½ ounces essence Mentho-laxene. Empty it into a pint bottle. Then make a syrup with a pint of granulated sugar, and a half pint of boiling water, put on fire and let it come to a boil. Then cool and fill up pint bottle and you will agree with the writer that it makes the finest quickest-acting cough syrup you have ever tried. And it not only relieves but cures.

The dose is a teaspoonful 3 to 10 times daily or, as required. Give children less according to age.

ALICE LLOYD AGAIN CAPTURES AUDIENCES AT THE ORPHEUM

MISS ALICE LLOYD at Oakland Orpheum.

(By LEO LEVY.)

All joy roads lead to the Orpheum this week, and it yesterday was a collection here won't be much room on the pathway for Alice Lloyd and Lew Sully when the end of the journey. While we say the Tweifth-street vaudeville house is the mecca of laughing pilgrims.

Lay it to her radiance, her joyousness, to press agent, her spirit of harmony, to suggestion in her songs, or her dress, the last remains Alice Lloyd is the idol of vaudeville. A hurricane of applause that has its inception in the topmost row of the gallery and drops to the ground floor where it tears things up greets the fair British artiste after every song. The gallery god lays his heart at her feet and the man who paid 75 cents for his seat would do the same thing if he could without fracturing his dignity.

SERVES AS BAIT.

"I Want to be Among the Boys" fails to evoke much comment. It is Miss Lloyd's opening song and serves as bait. "Ship Ahoy!" in sailor costume goes a little further, by the time it is over the audience is warmed up and vociferous. The demand for novelty of fleshings is great and the bald heads shamelessly adjust opera glasses and wait for the orchestra to drop the old song and get on to the new.

Miss Lloyd in a hobble is a strong argument for the maintainence of that much-abused freak of fashion. The shackleskirt is actually becoming and is everything else the song declares. "Never Introduce Your Friend, etc.," follows the hobble.

A subject for the rhapsodies of poet and artist is the singer as Cupid. Pink, we think it was, and every bit as dainty as the shade, was the person inside. "Isn't she just too sweet?" ejaculated the lady in front. "Class," remarked the man with her. And "Gee!" said the small boy.

You liked Alice Lloyd in "Splash Me". Now see her as Master Cupid.

SULLY'S SECRET.

Lew Sully is here, also. He has a deep secret that we dare him to make public. In a bobble gown designed by Miss Lloyd he burlesques the fan dance and sets the house screaming. How he gets into the costume he failed to announce. The secret is his and Miss Lloyd's and they keep it tank. But there was more than one follower of Lame Deshon in the audience who would give much to know whether Sully dives in, jumps in or has it sewed on.

Sully is every bit as funny as in the past, which is saying the best that can be said. He sings some hard things about the old city hall, manware, perhaps, that a million-dollar building is about to arise on the wreck, and his patter song, every available intelligible, is as much a marvel as his take-off on Master Cupid. Sully is the surest cure for the blue devils that has been on the Orpheum stage since he was here last.

Hilbert and Warren play a return engagement and with the Reed show round out a program that argues well for vaudeville. The Rigoletto brothers, Charles E. Warren and daughters, Melville and Higgins, Howard and La Pia will be here on another week.

MIDSHIPMAN SOUGHT AS BAD CHECK MAN

SAN FRANCISCO, Jan. 16.—The managers of the St. Francis Hotel and Police Detective David Murphy are inquiring as to the whereabouts of W. N. Barrett, Jr., a young midshipman, who, until last Friday, was attached to the United States cruiser Maryland. The hotel people notified the police last night that Barrett had passed two bad checks upon them for dinner parties which he had given to his friends in the hotel. One of the checks was for $110 and the other for $25, both on the Mariine Bank. It was learned last night that Barrett had resigned from the cruiser and that he had disappeared.

WORRY AND GRIEF MAKE MAN ATTEMPT SUICIDE

CINCINNATI, O., Jan. 16.—Worry and grief over the fact that his brother's body has not been recovered from the ruins of the Chamber of Commerce building, destroyed by fire last Tuesday, Peter Selm attempted suicide at his home in Covington today by eating rat poison. Physicians say he cannot recover.

If Peter Selm dies he will be the second man to commit suicide as the result of the fire.

DEATH CALLS PRINTER.

SEATTLE, Wash., Jan. 16.—Robert Sutherland, for fifteen years proof-reader of the Post-Intelligencer and well known among union printers throughout the United States, died at his home here last night, aged 80 years. He was born in Edinburgh, Scotland, and had traveled widely.

MIDNIGHT THUGS TERRORIZE CITY

Los Angeles Couple Beaten by Brutal Robbers; Street Car Held Up.

LOS ANGELES, Jan. 16.—While bandits, operating on Boyle Heights were holding up and robbing a street car a few minutes before midnight last night, two other things were terrorizing the district bordering the west side of the dry river bed. The latter two penetrated several minor hold ups and then brutally beat up Mr. and Mrs. W. F. Dyer near their home at Clarke avenue and Fifth street. Mrs. Dyer's screams frightened the highwaymen, but they fled only after both the woman and her husband had been rendered unconscious.

The street car hold-up occurred at the end of the East street line on Boyle Heights. Two masked bandits surprised Conductor Tinsley and Motorman Murdock, and after riding away their revolvers and gold watches they robbed Tinsley of $35. The bandits then forced the carmen to ride them to a point on the line where broken country would aid their escape and after stripping the two victims of their effects, they disappeared among the hills.

GIVES LIFE TO SAVE DROWNING ANIMAL

WARREN, Mass., Jan. 16.—Efforts to succor a wounded deer which was floating down Swift river on an ice cake, cost Stanislaus Loudan his life. When he observed the predicament of the deer Doulan rushed out on the ice, which gave way beneath him.

John Skuse, a companion, was nearly drowned in endeavoring to rescue Doulan.

Consumption Often Develops From Pneumania

Consumption readily attacks those who have had Pneumonia. Many sufferers from tuberculosis give a history of having had pneumonia. The lungs thus weakened are more easily attacked by the germs that cause consumption.

For all those with "weak lungs," especially those who have had pneumonia, Eckman's Alterative is the appropriate remedy. Cures of consumption are accomplished by Eckman's Alterative. But take it in time. There is no wisdom in waiting until Tuberculosis is established. Health is never fully valued until sickness comes. A remarkable recovery follows: 4240 Powelton Ave., Phila., Pa.

Gentlemen:—"I wish I had known of Eckman's Alterative two years ago since taking it I have gained twenty-eight pounds and I cannot but be very thankful to you and the Almighty God for the great blessing and change of health it has brought me."

(Signed) THOMAS REILLY.

Eckman's Alterative cures Bronchitis, Asthma, Hay Fever, Throat and Lung Affections. For sale by The Owl drug stores and other leading druggists. Ask for booklet of cured cases and write to Eckman Laboratory, Philadelphia, Pa., for additional evidence.

BACKACHE MEANS KIDNEY TROUBLE

A Few Doses Regulate the Kidneys, Ending All Backache, Bladder or Urinary Misery.

No reader of this paper, whether man or woman, need be miserable because of Backache or kidney or bladder disorders.

The time to cure kidney trouble is while it is only trouble—before it settles into Dropsy, Gravel, Diabetes or Bright's Disease.

Pape's Diuretic acts at once upon the kidneys, bladder and entire urinary system, cleanses, heals and regulates these organs, ducts and glands and completes the cure within a few days. The moment you suspect any kidney or urinary derangement, or feel a constant, dull backache or notice that the urine is thick, cloudy, offensive or full of sediment, irregular of passage or attended by a sensation of scalding, you should begin taking Pape's Diuretic as directed, with the knowledge that there is no other remedy, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure.

Misery in the back, sides or loins, sick headache, inflamed or puffy eyelids, nervousness, Prostatic trouble, rheumatism and darting pains, heart palpitations, bilious stomach, dizziness, sleeplessness, listless, weak, worn-out feeling and other symptoms caused by inactive, sluggish kidneys simply vanish. Uncontrollable urination (especially at night) smarting, discolored water and all bladder misery ends.

Your physician, pharmacist, banker or any mercantile agency will vouch for the responsibility of Pape, Thompson & Pape of Cincinnati, Ohio, who prepare Pape's Diuretic—50 cents treatment—sold by every druggist in the world.

'THE NIGGER' IS PLAY OF THRILLS

Florence Roberts Returns to Oakland in Drama of the South

The attraction at the Macdonough theater, commencing tonight will be Florence Roberts in Edward Sheldon's remarkable American play, "The Nigger," and it promises to be one of the most interesting dramatic events of the year. "The Nigger" is classed among the greatest of the famous New Theater's successes. William A. Brady (Ltd.), who has arranged a country-wide tour for the play this season, has secured for the leading role of Philip Morrow, around whom the plot centers, Thurlow Bergen, a new player of recognized ability. His characterization is described as remarkable.

The role of Georgiana Reid, the young Southern girl to whom sorrow is engaged, and whose betrothal is broken by the discovery that he has negro blood in his veins is played by Miss Roberts an actress who has won great success in emotional roles. The company on the whole is admirable.

The play is a powerful one and makes a tremendous appeal to the emotions. The New York World calls it "a play of thrills." There is a lynching, a political campaign, a race riot and a series of other sensational incidents, and interest is kept at fever heat throughout the play.

The plot centers about the efforts of one Clifton Noyes, a politician and distiller, played by George Barbier, to prevent the signing of a prohibition bill. He threatens the Governor, to expose him as a "Nigger" if he does not veto the bill. The Governor, however, signs it and Noyes, who has discovered that Morrow's grandmother was a quadroon, threatens to make the fact known through a newspaper he owns. Morrow anticipated him, releases his sweetheart from her promise to marry him, renounces his political ambitions and determines to live among the people of his own race.

The scenes between Morrow and Noyes and between the Governor and his sweetheart are dramatic in the extreme and the play throughout is one to be remembered.

There will be a special matinee Wednesday.

HASKELL'S NEPHEW ACCUSED SLAYER

Two Interfere With Wife Beater; One Killed, Another Wounded.

OKLAHOMA CITY, Okla., Jan. 16.—A. C. Christensen, electrical engineer, is dead; T. D. Anderson, plumber, is perhaps fatally wounded, Mrs. Nora Updike is held by the police as an accessory, and B. D. Updike, her husband, a detective and a full nephew of former Governor Charles N. Haskell of Oklahoma is sought, charged with the murder of Christensen and the wounding of Anderson.

Anderson is a brother-in-law of the alleged murderer and before he became unconscious from loss of blood from a lung wound, made a statement that Updike had shot him and Christensen when the latter interfered to prevent Updike from further beating his wife.

The crime occurred at 8:35 o'clock last night.

Updike's mother was Governor Haskell's sister.

GERMAN PASTOR DIES AND SAN JOSE MOURNS

SAN JOSE, Jan. 16.—John Erich, for nearly a quarter of a century a preacher for the Evangelical Association of North America, is dead in this city. Death, which followed an illness which has attacked him intermittently for several years, caused profound sorrow in the local German colony, in which he has been working for some time. He was a native of Germany and 50 years of age.

Rev. Mr. Erich as one of the best known German preachers, having been connected with many large charges all over the country and of late years in some of the largest German churches on the Pacific coast. He has held pastorates in Seattle, Tacoma, Portland and Oregon City and in Oakville, Napa, Porterville, Fresno, San Jose and San Francisco. Malaria overtook him while he was in charge of the church at Fresno and he came to this city seeking health, but in vain.

Special Pleading on False Premises.

A number of prominent citizens of New England and New York have issued a statement embodying six reasons why the Panama canal should not be fortified. One of the assertions contained in the document is as follows: "Because the Suez canal was built with English money England agreed to its neutralization."

It is strange that highly educated, well-informed men like Richard Olney, David Starr Jordan, William Dean Howells and President Faunce of Brown University should sponsor so inaccurate an assertion as the above. The Suez canal was not built with English money. It was built by a French company mainly with French and Belgian money. Years afterward the English government bought a large majority of the stock. When the Suez canal was chartered the English government insisted that the waterway, which is in territory over which Turkey holds suzerainty, should be neutralized, and was backed in this demand by the other European powers. While the Suez canal has been neutralized, England since purchasing a controlling interest in it has virtually annexed Egypt to the British crown. She holds the land which is the key to the canal, and with her fleets and naval stations at Aden, Cyprus and Malta commands its approaches.

The situation at Panama is nowise analogous to the one at Suez. The United States government is building the Panama canal as a national enterprise. The Suez canal was built by a private corporation chartered by the French government. The concession under which it was built was a matter of international agreement. The concession for the Panama canal was strictly a business agreement between the republic of Panama and the United States government.

The isthmus of Panama is a part of the American continent and no government in this hemisphere objects to the canal being fortified. The objections all come from Europe and Asia.

Whether the Panama canal will be safer from attack unprotected by fortifications is a mere conclusion which is not sustained by the facts of the case. The United States owns the canal and is pledged to maintain its neutrality. Other nations are under no such pledge, and only the test of actual conflict would prove whether they would respect its neutrality in case it could be seized and utilized to advantage in case of war with the United States.

The neutrality of the Suez canal has never been fairly tested. It never will be till there is war between England and Germany or France. No nation has ever violated neutrality laws and agreements so frequently as Great Britain. England has always placed her advantage above neutrality engagements.

The British government is being radically reformed, but there is no talk about reforming the judiciary. Judges are appointed for life in England and it is universally acknowledged that the English judicial system is about the best in the world. There is no suggestion by even the most advanced of British radicals that the judiciary should be made elective, to say nothing of being subjected to the recall. In this country men who are contrasting the American with the British judiciary unfavorably to the former are demanding the election of all judges by popular vote and their recall at the pleasure of the electorate. Yet the superiority of the Federal over the State judiciary is a manifest proof that the appointive system is productive of better results.

Southern California wants a State University and a State Prison. It is to be hoped our southern fellow citizens will leave us the State Capitol.

Houston, Texas, which is given less than 90,000 inhabitants by the 1910 census, has erected a large auditorium that will seat many thousand people. It is a municipal enterprise, built to attract conventions and a place for entertainments on a large scale. It is expected that the business it will bring to the city will far more than offset the interest on the investment. The control of this institution is placed in the hands of five trustees, well known business men of standing, who serve without pay. Houston followed the example of Denver in building this auditorium, and expects to reap as great an advantage in her enterprise as Denver has reaped from the splendid auditorium that in 1908 brought the Democratic national convention to the Colorado capital. Oakland has nearly twice as many inhabitants as Houston and needs an auditorium fully as bad.

The law now prohibits the sale of quail in the markets. Restaurants and hotels are also forbidden to serve quail on their bills of fare. It is now proposed to forbid the sale of wild ducks, geese and brant. Such a law would deprive any person who did not hunt of the right to eat game. It would "protect" all feathered game for the exclusive benefit of the owners of private preserves and those with the means and leisure to indulge in shooting. Virtually it would create a game monopoly for the gun clubs. There is something radically wrong with a system of game protection that creates a monopoly for a favored class, that taxes people to protect game they are not permitted to buy and eat. The game belongs to the public, say the courts, but legislation is constantly [illegible] to prevent the public enjoying it.

The Salaries of Judges.

The proposal to give the Superior Judges of Alameda county the same salaries that are paid Superior Judges in San Francisco and Los Angeles is an entirely just one. Their pay is insufficient in the first place, and in the second there is neither justice nor common sense in paying Alameda judges smaller salaries than the judges of San Francisco and Los Angeles receive.

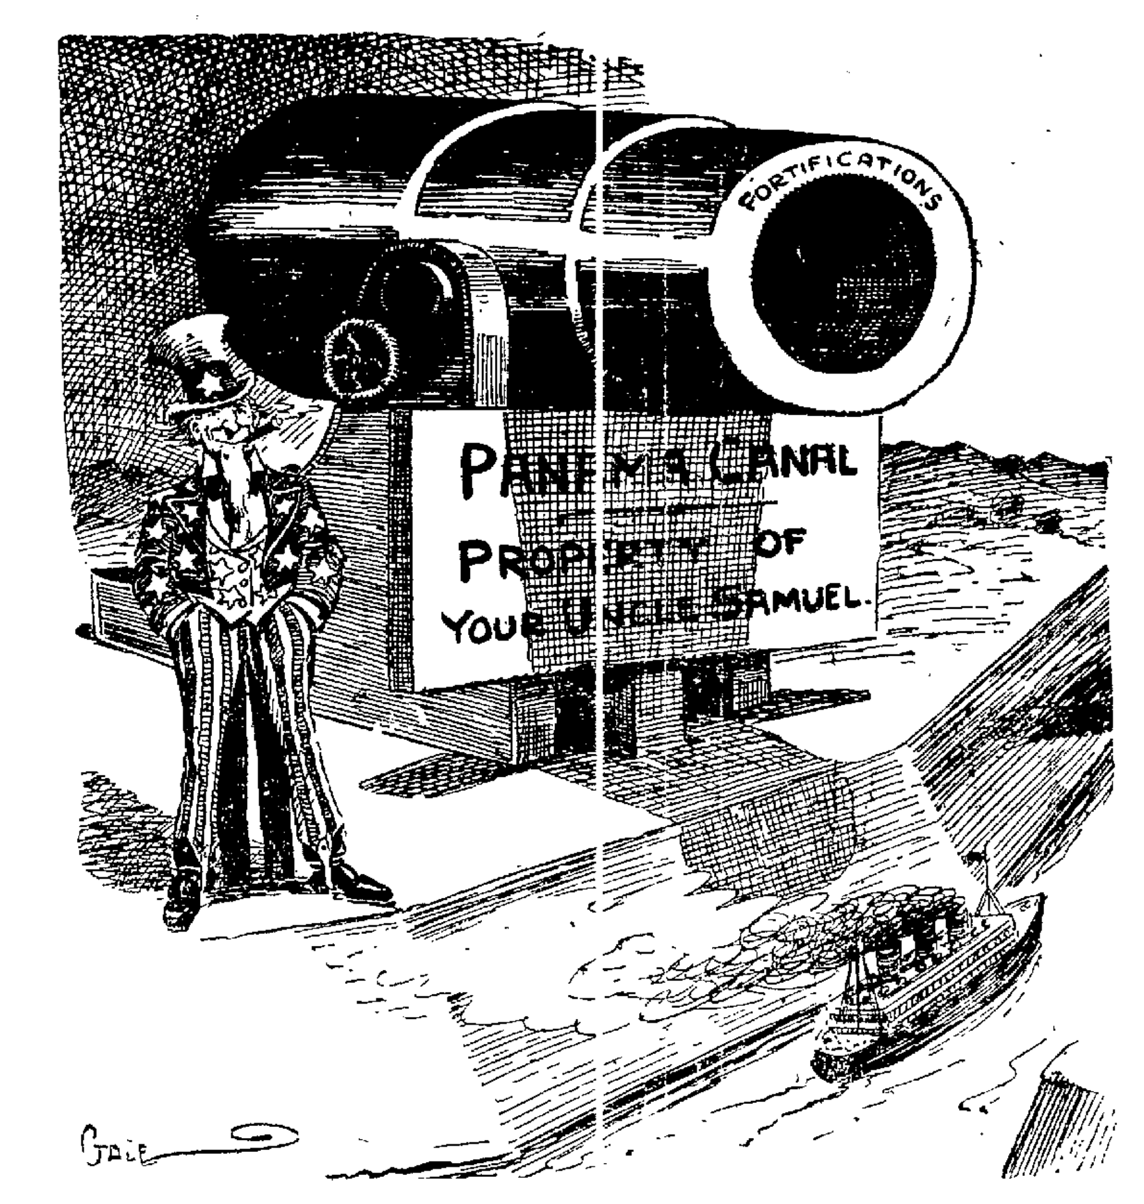

It cannot be denied that Alameda judges are as able and upright as any in the State; they are harder worked than the judges of any other county and have as important business to handle. Why should they be paid less? What reason is there for discriminating against them?

The salaries of Superior Judges were fixed in 1879, when the cost of living was much lower and the work of the judiciary less arduous and exacting. Salaries generally then were on a much lower scale than now, and lawyers' fees on a much more moderate scale. While lawyers' fees, salaries and the cost of living have gone up the salaries of the superior Judges of this county have remained stationary. Judicial salaries have been raised in San Francisco and Los Angeles, but not in Alameda. Yet it is a poor lawyer, indeed, who does not earn more in fees than the judge before whom he tries his cases.

When the new constitution was framed in 1879 San Francisco was allotted twelve Superior Judges. The population of the city and county of San Francisco was then less than the present population of Alameda county. Yet six Superior Judges are at present allotted to this county against San Francisco's twelve—and they are paid $1000 a year less compensation.

They are overworked and underpaid. That is the plain truth of the matter. While the judiciary of Alameda county has always been of a high class, both as regards character and learning, this standard cannot be maintained unless the judges are better paid and not overworked. We demand ability, integrity, learning and sterling character on the bench, and these are qualities which deserve adequate compensation. They cannot be had forever without decent pay. A judge has a social position to maintain, and his office debars him from many profitable activities. But while we debar judges from money-making activities and are exacting as regards their character, conduct and ability, we pay them beggarly salaries and work them like cart horses. This is not only unjust, but bad policy.

EDITORIAL PARAGRAPHS

Too many people in the world like their own notions when they are not at all noteworthy; ideas never reach the ideal unless they teach the truth—and turn error out.

You can never impress men so much with what you say as with what you do; your personality will show as you practice even when you are not sincere in what you say.

When we use up our energy in aping what we would like to be, we are unable to become what we should be—imitation is sham attainment.

Determination is the essence of all the "dare to do" in you; when you work "on the square" with an earnest desire you will lift yourself above your present level—doubt will take you down-grade.

When you do not believe in yourself and in what the world holds in store for you, you have but one chance and that's "chance"—hope is gone.

You will not long aspire if you allow yourself to tire of the rewards that come for your work; you will never get big game if you show shame for present failures.

Stretch your lungs, for they enjoy the practice, every time you give your lungs profitable exercise you give them a good airing.

A Guide to Opera

Bang, thump and crash, with a roll of the drum—
That's the motif announcing the hero will come.
Jing-a-ling-ling, and an arpeggio—
The heroine's off for a walk with her beau.
Two minor chords, with the clarinet's shriek—
The public is sure there is vengeance to wreak;
Umpty-dump, umpty-dump, down in the bass—
The villain is seeking the hero's disgrace.
Tweedledy, tweedledy, two or three times—
Crashes cacophonous stunning the brain—
The hero's in danger, that's perfectly plain;
Toot, toot! The cornet rings out on the air—
He triumphs and siezes his foe by the hair;
Mush, mush played slow and repeated ad lib—
The hero is kissing the fair heroine!

Opposing Cigarettes

The managers of the great railway systems have long insisted that their employes abstain from the use of intoxicating liquors. Now it is announced that the Atchison, Topeka and Santa Fe Railroad is discharging those of its men whose "yellow fingers" betray their addiction to the habit of smoking cigarettes. Beginning this month no more cigarette smokers will be employed.

The report just published, of the Commissioner of Internal Revenue shows that the use of tobacco in all forms is largely increasing in this country and that 57,000,000,000 cigarettes were smoked in the year ended last June, a billion more than in 1909. The Santa Fe railroad does not prohibit the use of cigars or of pipes by its men. The company believes these are not so injurious as cigarettes. But we doubt whether it has any scientific confirmation of this belief.

Separate investigations have been conducted by medical examiners at the Universities of Michigan, Cambridge, Yale, at Clark College, and at the Henry Phipps institute, which show that the use of tobacco by adolescents is injurious, but that healthy and mature men suffer no measurable ill effects from a moderate indulgence. But any person may use tobacco excessively; some have a physical idiosyncrasy against tobacco, and some suffer from nervous affections that are made graver by its use. Moreover, the tests of college students show that tobacco use may be [illegible] idleness and inattention in the [illegible]. It is worthy to note that a great public service corporation should issue a denying ordinance against them. To be sure that is in the west where the prejudice against cigarettes has found expression in several state prohibition laws. The eastern railroad companies have not deemed it worth while to follow the Santa Fe's example.—New York Times.

THE KIND THAT GETS ON

Booker T. Washington, congratulated by a New York reporter on the success he has made of his life, said with a smile:

"I suppose I must be modest and declare that luck has had much to do with my progress, or otherwise I'll be in Senator Dash's shoes.

"Senator Dash of Tallapoosa prided himself on his rise from the bottom, for Senator Dash in his youth had worked with the colored men in the cotton fields.

"Boasting at a political meeting about this, the senator singled out Uncle Calhoun Webster among his audience and said:

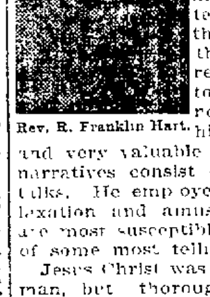

"'I see before me old Calhoun Webster beside whom, in the broiling southern sun, I toiled day after day. Now, ladies and gentlemen, I appeal to Uncle Calhoun. Tell us all, Uncle, was I or was I not, a good man in the cotton fields?'

"'Yo' wuz a good man, sonah,' the aged negro replied 'yo' wuz a good man fo' a fack, but yo' sutt'ny didn't work much.'"

Christ at Cana

By REV. R. FRANKLIN HART, Curate of St. Paul's Parish.

At the wedding feast in Cana our Lord wrought his first miracle. Here he manifested forth his glory and his disciples believed on him. So from the very first he set the seal of his approval upon social pleasures. We become so accustomed to thinking of the burdens and sorrows Christ bore; of the shame and woe and suffering heaped upon him, that we almost forget how he entered into the joys of living. He was acquainted with grief, but he also knew happiness. Often we find him at the feasts; indeed there is no extant record of his refusal to engage in the normal pleasures of his time. A large and very valuable part of the gospel narratives consist of his after-dinner talks. He employed the hours of relaxation and amusement, when men are most susceptible for the speaking of some most telling truths.

Rev. R. Franklin Hart.

Jesus Christ was not only really human, but thoroughly human, with such zest of life and such joy in it as any full-blooded healthy truly moral life always discovers. It is a capital error to suppose that pleasure and noble living are at enmity. And any way of life which has room for solemnity and none for laughter will in a little while prove itself morose and melancholy, one-sided and un-Christian. There is a discipline in pleasure, leading a soul to God, if the soul will.

This was a marriage, which Christ approved by his presence and helpfulness. Afterward he taught the sanctity of marriage and how it is not rightly to be dissolved. At no point is his teaching clearer than at this point. It is an indelible mark of Christ's religion that marriage and the home are sanctified with divine favor. So when we would try the spirits of any new cult we may ask this question as one fundamental test: What is its effect on marriage and the home? The spirit which mocks at wedlock or asserts "marriage is legalized lust" is decidedly anti-Christian. Any teaching which in any way opposes itself to marriage and the home opposes itself to Christ and convicts itself at once as less than the truth. Christianity true to Christ stands firmly by his plain example and teaching of the holiness of matrimony and the sanctity of the home.

ANARCHISM IN LONDON

It is not difficult to imagine what would be said by the too numerous company of superficial critics if the appalling and unprecedented tragedy of yesterday had occurred not in London, but in New York, or Chicago, or Deadwood. There would have been austere reflections upon the primitive and semi-barbarous state of society in which such things were possible and contemptuous recommendations that America should learn of her elders and betters how to order such matters without so rudely shocking humane sensibilities; utterances which would, perhaps, have been more numerous and more strident in this country than in Europe. We have heard of similar occurrences in Indian wars and in dealing with desperate bandits on the frontier. But this was in the heart of the world's chief city, surrounded by all the circumstances and appurtenances of the highest civilization and the most efficient administration of law, the police hemming a gang of desperadoes in a burning building with a cordon of rifle muzzles, and giving them only the choice of coming out and being shot or staying in and being burned, like vermin in a brush heap.

For years the cult of militant anarchy has been ominously growing in London. Lax immigration laws have permitted criminals from every land to find asylum there, with too great confidence that their appreciation of the value of the asylum would restrain them from abusing its privileges. So London has become the habitat of many alien anarchists, to the increasing apprehension of thoughtful citizens.—New York Tribune.

BONDHOLDER IN HEAVEN

The Rev. Lundy H. Harris of Nashville died poor in this world's goods, leaving only $3.25 in his purse, $116 in bank, a few books and a coffin. According to the inventory filed by his widow—

"The major part of his estate was invested in heavenly securities. He invested every year not less than $1200 in charity, so secretly, so inoffensively and so honestly that he was never suspected of being a philanthropist and never praised for his generosity. He pensioned an old outcast woman in Farron county and an old soldier in Nashville. He sent two little negro boys to school and supported for three years a family of fine who could not support themselves.

"He contributed anonymously to every charity in Nashville every old maid interested in a 'benevolent object' received his aid, every child he knew exacted and received penny tolls from his tenderness. He supported the heart of every man who confided in him with encouragement and affection. He literally did forgive his enemies, and he was ever recognized as one of the largest bondholders in heaven."

No doubt there is more of this kind of investment than is commonly supposed. Millionaires buy heavenly securities in blocks, but the great holdings are among the plain people who acquire them in odd lots as did Mr. Harris who do good by stealth and disclaim their philanthropy, taking as much pleasure in swearing off their securities in heaven as others do their personal taxes. Their estates do not bulk large in executors' schedules but they derive a satisfaction from their investments not always shared by other bondholders.—New York World.

FOR SAKE OF SPECTACULAR

With two such men as Moisant and Hoxsey sacrificed in one day to the whims of the air currents it is tragically emphasized that flying is yet a treacherous undertaking.

Man's boasted conquest of the air carries no insurance against the fitful accidents which so frequently blur the brilliance of human achievement in the sky.

Grahame-White remarked, only a few days ago, that by the end of this year the aeroplane would be as popular as the automobile with persons who could afford the sport, and he insisted that the thought of danger would be seldom present.

Orville Wright said, in a recent interview, that aeroplaning was "as safe as motoring if one takes the same precautions."

It does seem that the question of greater security and safety is far more important at this particular time than the striving for money prizes when this involves continual death-inviting risks.

Wonderful progress has been made in recent months in aerial navigation in the heavier-than-air planes, if progress is reckoned only by altitude and spiral glides and other thrilling tricks.

But these performances contribute little to the real advancement of the science.

It would seem, therefore, that the Wrights, the Curtisses, and the other inventors could well afford to turn their serious attention to the perfection of aeroplanes, of engines and the delicate mechanism, which would tend to make aviation less dangerous.

Do your own thinking, but do your worrying by proxy.

MENTAL EPIDEMICS

Reports from Adams county, Ohio, show that the bribery investigation has become more like a religious revival than a judicial proceeding. Instead of waiting to be indicted or even accused, the penitent bribe-takers are crowding the court almost beyond its capacity to deal with them. On Tuesday the streets of West Union were so thronged with offenders from the county that the women of the churches felt called upon to serve them with coffee and sandwiches.

A number of particular cases attest the moral impulse that animates the movement and urges to confession. A woman 60 years of age, who of course had no vote to sell, went before the judge to confess that she had sold the votes of her husband and her son. An old man on his deathbed, a veteran of the Civil War, sent in a confession by his grandson, and the grandson himself who voted this year for the first time, added the confession that he also had sold his vote.

Such mental epidemics are not infrequent in religious experiences. In fact, nearly all revivals are [illegible] upon them, and the voices of confessing sinners have been heard by nearly all pastors. But this is the first recorded instance of a political penitence visiting a whole community and prompting to confessions in court. Also it is the first instance where offenders on the way to court to confess their crimes have been met with refreshments by church societies.—New York World.

Political Comment

Under the leadership of Roosevelt this country has been on a spree of experiments in State Socialism. The enormous cost and the disastrous effect of these experiments have been felt. The average sober-minded American wants to get away from them. He is looking for leadership to bring him back to historic American principles of government. The more of that leadership any party can supply the greater the public confidence it will command in the campaign of 1912.—Chicago Inter Ocean.

DETECTIVE NURSE HURTS PRISONER

Asserts Mrs. Schenk Was Sorry Her Husband Improved.

WHEELING W Va., Jan 16 — There are so many angles to the trial of Mrs Laura Farnsworth Schenk, charged with having attempted to murder her husband that attorneys are convinced that several weeks will elapse before it is concluded.

Mrs. Schenk spent Sunday quietly in her tower room and devoted much of her time to reading letters, which are pouring in on her at the rate of a hundred a day from all parts of the English speaking world. All of these letters express sympathy for her. One contained a proposal of marriage.

Miss Eleanor Zockler, the detective nurse who gave damaging evidence against Mrs Schenk Saturday, was on the stand when court convened today.

"Mrs. Schenk told me on one occasion," said the witness, "that when John Schenk died I would be well provided for. On Friday following the offer to give me $1000 to poison Mr Schenk, Mrs Schenk came to the hospital and asked to be left alone in the room with Schenk for a few minutes. We left them alone in the room and there were high words between them. On one occasion I remarked to Mrs Schenk 'well, he's making some improvement' and she replied, 'Yes, to my sorrow.'"

PUT NEW COMBINE ON WORKING BASIS

Organization of United Properties Company Going Ahead Rapidly.

SAN FRANCISCO, Jan 16.—The United Properties Company, the $200,000,000 corporation which has taken over the Key Route, the Oakland Traction [illegible], the Bay Cities Water Company and several other large concerns is being rapidly organized on a working basis. Following the election of the officers and board of directors of the new combine on Friday afternoon work was immediately begun on the mass of details which must first be arranged before the various projects planned by the company can be gotten under way.

The Oakland offices of the corporation are to be in the new Realty Syndicate building, Oakland, and President [illegible] M Smith will not transfer his private office to the San Francisco side of the bay as was at first reported. It is understood that the offices in the Mechanics Savings Bank building in the metropolis are to be merely the nominal executive headquarters of the concern where the meetings of the board of directors will be held.

The board of directors is considering the various improvements which are at once to be made and the work of extending the Key Route to San Jose is the first matter which is holding their attention. Within a very few days now the articles of incorporation, already filed in Delaware, will again be filed in San Francisco according to the laws of the State of California, and it is understood that they will be a little more comprehensive than those which were placed on record in the East.

EXPOSURE KILLS 80-YEAR-OLD MAN

Body Found Near Roadside With Rain Beating on Upturned Face.

LOS ANGELES, Jan 16.—An old man apparently 80 years old was found by the roadside near Watts, a suburb of Los Angeles, yesterday with the rain beating on his upturned face, dead from exposure. The only clew to his identity is a card on which is written T M Doke [illegible] Tula[illegible] county Cal.

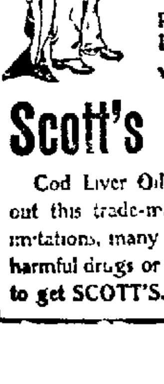

Ranchers living between Compton and Watts report seeing the old man begging for work Saturday afternoon. It was then raining and he appeared to be drenched to the skin [illegible] and was very feeble. The coroner will hold an inquest today.

'PANSY'S' DAUGHTER BRANDED AN INCORRIGIBLE

Woman Who Wrote on "How to Raise Children" Fails to Do It.

PALO ALTO Jan 16—With the announcement of Miss Frances Alden the adopted daughter of Rev G R Alden a retired Presbyterian minister that she would change her name and enter a home, it became known that the girl's foster mother known everywhere as the author of the Pansy Stories on "How to Raise Children" has confessed her own inability to curb the wayward ness of her adopted daughter raised from babyhood and committed her to a home for delinquent girls.

Miss Frances has just arrived at the age of 18. It was this fact that induced her to leave the Florence Crittenden Home where she had been kept for four months and enter the Home of the Good Shepherd in Los Angeles. She will change her name to Vera [illegible] [illegible].

Four months ago Miss Frances decided to enter Stanford and dressed in boys clothes. For three days she masqueraded in male attire on the campus and in classroom. This was regarded as the last straw and she was sent to the Crittenden Home. She was up before the juvenile court once.

The Aldens adopted Miss Frances when she was a baby. The family moved to this city [illegible] years ago with Frances then three years old. She has had the advantage of the best training and is an accomplished musician. She is very beautiful and moves in the best set here.

Actress Is Inventor

NEW YORK Jan 16—The versatile mind of Maude Adams the actress has devised new system of playhouse [illegible] which is being installed for [illegible] in the Knickerbocker Theater here in preparation for the appearance of Miss Adams in Chantecler. The idea came to her while she was playing in the Greek Theater at the University of California four years ago.

Miss Adams discovered that the wonderful acoustic properties of the University Theater were based not on the [illegible] of projecting sound [illegible] stage but rather on the [illegible] of sound in the auditorium by means of a high [illegible] of masonry erected [illegible] the row of seats. From this idea she worked out the invention of a wall-like sounding board which is being put in the Knickerbocker and which Mr Frohman intends ultimately to install in all his theaters. The invention has been patented.

Peer to Wed Actress

LONDON Jan 16—Another link between the peerage and the stage is about to be welded. The musical comedy actress Zena Dare is betrothed to Maurice Brett whose brother rumor recently [illegible] her name. The alliance seems to be approved by the family of Viscount Esher whose guest Miss Dare has frequently been during the last three years. The father of Miss Dare is a lawyer's clerk.

Miss Taft After Honors

WASHINGTON Jan 16—A new candidate for cross-country riding honors will come into the [illegible] field when Miss Helen Taft who [illegible] a splendid horsewoman will ride from Washington to Chevy Spring Valley Md [illegible] the same day. Miss Taft will be the guest of Naval Surgeon C T Grayson while Mrs Herbert Wadsworth the champion amateur horsewoman of Washington will chaperone her party.

After luncheon at the Green Spring Country Club the return trip to Washington will be made the longest way around.

The distance both ways is about 100 miles but it is possible [illegible] may be made by rail.

Lady Duff to Raise $500,000

LADY JULIET DUFF, who is at work on a gigantic benefaction

LONDON—Lady Juliet Duff the tall and handsome daughter of the tall and handsome Marchioness of Ripon has taken upon herself a gigantic task of charity—that of raising $500,000 for the Charing Cross Hospital of London, which has fallen on evil days.

Lady Juliet is president of the appeal committee and because of its heavy debts the hospital is practically closed. There is a large mortgage on the institution and the annual payments for interest and sinking fund are such a drain upon the resources and income that the council has been forced to close several wards in order to reduce expenditures.

Charing Cross Hospital's record for the alleviation of sickness and suffering extends back seventy-six years and in order that this record may go on to the fullest degree Lady Juliet Duff has heroically embarked on the tremendous project of personally raising the necessary half million dollars.

Lady Juliet's father was the late Earl of Lonsdale who was Lady Ripon's first husband. Her husband is Captain Robert Duff of the Life Guards.

Slovenly Dress — Slovenly Traits, Says Woman

Grace L. Hitchings Puts a New Light On Subject

NEW YORK—If girls want to impress their critical [illegible] with the high moral standard it is necessary that the hair be worn in the neatest of fashions and that frocks be chosen that are beyond reproach. This is the advice of a dress expert Miss [illegible] Knowles of the Iowa State Agricultural College who studies the science of [illegible] She announces the [illegible] convention [illegible] is that slovenly clothes mean slovenly [illegible] habits.

Just how far the garments a woman wears may be considered an expression of an inward [illegible] is a subject which [illegible] have not considered [illegible] but Miss Grace L Hitchings instructor in the fine arts department of Teachers College went over the matter [illegible] said Miss Knowles is about right.

ALL ARE RELATED

If self respect means morals then clothes and [illegible] are related she said. Every woman who has given the matter [illegible] thought understands [illegible] have on her mind. If [illegible] carelessly dressed she has not the same self respect she has when daintily clothed. A pair of shoes with run down heels are enough [illegible] on a [illegible] viewpoint. Slovenly footwear usually expresses a slovenly mental condition and a slovenly mental condition may lead to immorality. It would be more difficult to maintain a high standard of morality when thus clad [illegible] to lost.

TOO SEVERE

It may be too severe to say that carelessness [illegible] but [illegible]

[illegible] and that is not immorality, is it not.

Purified, He Kisses the First Woman He Meets

SAN DIEGO—I don't know that there is anything the matter with me. I was so glad that I got salvation that when I saw Mrs Washburn that morning I just went up and hugged her and kissed her. I just couldn't help it. And her she was an old fashioned friend and I thought she was glad too. Don't you know you can't be saved unless you are glad of it and I was so happy. Oh! Oh! Oh!

This is the way in which DeWitt C Newell a gardener, living with his sister at 3763 Second street explains his actions toward Mrs Washburn and other women living in the vicinity of Sixth and Walnut streets about 10 o'clock one morning.

Shortly after 10 o'clock a call was sent to the police department asking that an officer be sent to Sixth and Walnut to get a crazy man who was terrorizing the neighborhood. Officer Ratliff made a hurried trip out there on his autobike and when he arrived on the scene he found Newell on the premises. Investigation showed that Mr W C Eltinking had become very much frightened [illegible] and she had [illegible] herself in her home. [illegible] Mrs Thompson [illegible] is said to have become very much frightened at the actions of the man.

After investigating the matter Ratliff [illegible] [illegible] took him down. Further examination in the presence of other officers resulted in a visit to the district attorney's office and a complaint charging Newell with insanity.

He was then taken to the county hospital and it is probable that his case will be heard Saturday.

CHIEF SURGEON BRANDS DR. POND'S CHARGES UNTRUE

EDWIN T. EARL CONFIRMED AS NORMAL SCHOOL TRUSTEE

EDWIN T. EARL of Los Angeles, whose nomination as trustee of the Los Angeles normal school has been confirmed.

APPOINTMENT APPROVED BY SENATE

Leroy Wright Makes Speech in Opposition, But to No Avail.

Associates of Los Angeles Man Paid High Tribute to His Worth.

SACRAMENTO Jan 16 – Of two big explosions scheduled for today's session of the Senate one did not go off at all and the other sizzled just a little. All the expected pyrotechnics which attracted a considerable crowd were carefully left out by Senator Leroy Wright of San Diego who had been counted upon to set them off.

With reference to the Governor's message Senator Wright introduced a resolution providing that the committee on corporations should investigate the charges of injustices made therein and determine whether complaints ever had been made about the senates whether the railroad commission had investigated such complaint, as required by law, and whether it had made any finding concerning it. This resolution the Senator said would not hinder action on the Governor's message and he wished it understood that he was not trying to do anything of the sort. The resolution was sent to the committee on corporations.

EARL IS CONFIDENT

The Senator's real speech was made in connection with the vote on the Senate's concurrence in the nomination of E. T. Earl of Los Angeles as a member of the board of trustees of the State Normal School there. The nomination was confirmed by a vote of 35 to 1, Senator Wright voting against it. The nomination of Arthur Letts also of Los Angeles to be trustee of the State Normal School was confirmed without opposition. It has been said that I oppose Mr. Earl because he opposed my election, Senator [illegible] This is untrue. I was out of the State practically the entire campaign and with a few exceptions I do not know who opposed me.

If there is any institution where politics should not enter it is the one. In opposition to Mr. Earl—and I know he will be confirmed and do not ask any one to vote against him—is because his appointment will not meet the favor of those living in the South.

GOVERNOR INDORSES EARL

Questioned by Senator Curtin, Senator Wright said he had not [illegible] his objections before the governor. Senator Boynton however said that he would say that the governor knew of these objections and held that Mr. Earl stood for the best things in Southern California, for good [illegible] high ideals. FRIENDS PAY TRIBUTE AT FLOWER-LADEN BIER

Funeral of Mrs. Elizabeth Meehan, Whose Life Was Filled With Good Deeds

A requiem high mass was celebrated at 10 o'clock this morning at St. Anthony's Church at the corner of Sixteenth avenue and East Fifteenth street, East Oakland for Mrs. Elizabeth Meehan, who died last Thursday evening at the home of her son Jesse P. Meehan, in East Oakland. Mrs. Meehan's passing marked the end of a long and beautiful life spent in the service of others. Hers was a character of unusual sweetness and strength distinguished for its unselfishness, sympathy and unvarying kindness.

BEAUTIFUL FLOWERS

The parlors of the residence were filled with a rare profusion of beautiful flowers and handsome floral pieces sent by the many friends who mourn her loss as that of one whose place cannot easily be filled on account of the numberless good qualities which were the keystones of the character and daily life of their departed friend.

The employes of the Yosemite Laundry with which her son is connected sent a large floral piece of white chrysanthemums, pink carnations and ferns with the one word "Asleep" written across it and a pillow of white chrysanthemums and roses. Many very beautiful wreaths were among the floral tributes, one of Easter lilies and maidenhair fern and several of white roses and ferns and deep purple violets being especially noticeable. The casket was heaped with delicate flowers about its base and a wreath of white roses and maidenhair fern and sprays of violets and heliotrope was laid upon it.

The pallbearers at the services were E. L. Wade, J. W. [illegible], J. W. Evans, [illegible] Leon L. Loofbourow, a grandnephew of the deceased, DeVer [illegible], J. W. Phillips, J. M. Kelley and Irwin C. Lewis.

SORROWING FRIENDS

Mrs. Meehan leaves a wide circle of sorrowing friends who have known and loved the gentle aged woman for a number of years. She had been a resident of Oakland since 18[illegible] coming here from

THE LATE MRS. ELIZABETH MEEHAN.

Charleston, N. H. She was born in Essex county, Vermont, in 18[illegible] and was married in [illegible] January 1, 18[illegible] [illegible] the sixtieth anniversary of her wedding day. Two sons and two daughters [illegible] Jesse P. Meehan, [illegible] of Oakland and Mrs. [illegible] of Chicago.

363 STUDENTS ARE BARRED FROM COLLEGE

That Many Out of Last Term's Registration Fail and Cannot Re-Enter.

183 DROPPED PRIOR TO EXAMINATION

Larger Than Former Disqualification Record; Registration Begins at University.

UNIVERSITY OF CALIFORNIA, Jan. 16.—The call of the class-room and preliminary campus activities brought students old and new flocking to the university this morning.

It was registration day, graduate and undergraduate students bieng required to enroll their names at the recorder's office. A fee of $2 for late registration is exacted, as usual.

According to unofficial estimates, almost 200 incoming freshmen will register. Official reports at the recorder's office show that 363 students out of last term's registration will not be permitted to re-enter the university this semester. Of these, 183 had been dropped prior to examination week for various reasons, and 180 were disqualified as a result of the final examinations. The preceding term's total disqualification was less than this, the number being 338.

COLLEGE DAILY APPEARS.

The first issue of the student daily, The Californian, for this term, appeared this morning, under the editorship of Arthur Prendergast of Riverside, Cal., who served as managing editor last year. The woman's editor is Miss Higgins, while the business managership is in the hands of Roy L. Shurtleff.

Editorial attention in the student paper is turned today to the importance of the Associated Students' card sale. The pasteboards call for admission to preliminary baseball games and track meets and the right to vote in A. S. U. C. and class elections. An editorial is entitled "Verbum Sap," and is as follows:

"We will not attempt to block the path of progress while we deliver a general preliminary statement of our policy. We have, however, one piece of advice to give: Buy an A. S. U. C card. It is said that dead men tell no tales. This might be amended to read: dead ones have no right to talk. Your name on the card will settle any dispute."

NEW COLLEGE COURSE

Among the new courses which will be given this semester is Education 12, by President Wheeler. This course, which is called "Education and Democracy," is in substance a repetition of that given by Dr. Wheeler as Roosevelt professor in the University of Berlin during the semester of 1909-10.

In place of Professor T. H. Reed of the department of political science, who has been appointed secretary to Governor Johnson, Professor D. P. Barrows, dean of the graduate school, will give political science 1b and 110. Probably Professor Barrows will also give political science 1c.

Hygiene, First Aid, is an entirely new course given by Drs. Reinhardt, Sawyer and Bancroft. The course will consist of lectures, recitations, and practical demonstration, conducted along the lines suggested by the American Red Cross. First Aid will be a two-hour course given in three sections.

Delegates to Federated Improvement Clubs—A. E. Acklom, chairman; Charles L. Tisdale, W. A. S. Nicholson.

Alameda Personals

ALAMEDA, Jan. 16. — Mrs. E. K. Taylor was hostess Saturday at a sewing bee given at her apartments on Lafayette street. Those who enjoyed her hospitality were Mrs. Reuben Mastick, Mrs. W. H. Foster, Mrs. Fred Latham, Mrs. Wells Whitmore, Mrs. John Laughlin, Miss Lucile Knawland, Mrs. W. C. Halsey and Mrs. E. F. Nissen.

Miss Avis [illegible]erwood is the guest of Mrs. Nelson Shaw at her home at Brawley, in the southern part of the State.

Mr. and Mrs. George Nellus have departed for the east, where they will visit for about six months.

Douglas Parker, who went to Atlanta to attend the convention of the Alpha Tau Omega fraternity, has returned to his home.

Miss Rae Ruddell is the guest of Mrs. Will Shreve at Mayfield.

Mr. and Mrs. Chaster Youngberg are at the Primrose apartments in Oakland. Mrs. Youngberg was Miss Laura Graham of this city.

PLAN TO FORCE LIGHTS ON ALL RIGS AT NIGHT

BERKELEY, Jan. 16.—An ordnance to prevent vehicles using the streets of this city after nightfall unless a light that will be visible from front and rear is displayed is being prepared by City Attorney Stringham and the city council. At present there is no law upon this subject and several serious accidents have been narrowly averted recently.

The state law compels automobiles to have lamps, and an old ordinance provides that bicycles shall carry a headlight, but aside from this there is nothing to prevent other vehicles from traveling over the streets at any time with nothing to attract attention from drivers and pedestrians.

The details of the ordinance are not decided upon yet, but will probably be ready for consideration at the meeting tomorrow morning.

FIRE IN KEITH HOME.

BERKELEY, Jan. 16.—A still alarm was sent in to the fire department a few minutes after 6 o'clock last evening from the home of Douglass Keith, superintendent of the California Institute for the Deaf and Blind. On the arrival of Company Five it was found that the blaze was caused by a mass of papers in the fireplace, and that no damage had been done.

M'CLURE DEFENDS OFFICEHOLDER

Declares Public Servant Is the Target for Criticism; Business Men Talk.

BERKELEY, Jan. 16.—Business men and church men met to discuss "Christ and the City" under the auspices of the Men's Brotherhood of the College-Avenue Methodist church last evening.

Commissioner of Public Works W. F. McClure represented the municipality, and in his talk pointed out the difference between a citizen and a resident. A citizen, he said, was one who attended to his civic duties at the sacrifice of ease, while the resident was one who usually thought of ease first and civic responsibilities later, if at all. The practice of habitually criticising office-holders was condemned by Christ, declared Commissioner McClure, and in this age is too prevalent in cases where office-holders are striving to do their whole duty, but are unable to please everybody.

"Charity toward all was the attitude of Christ," said McClure. He then compared the modern city, with its varied improvements and facilities for comfort, with the city of Christ's time.

Arthur Arlett, a well-known business man, dealt with the mercantile side of a city's life.

A. W. Naylor, president of the Berkeley bank, presided. Chief of Police August Vollmer was unable to attend and deliver an address for which he was programmed.

PLAYGROUND HEAD VISITS UNIVERSITY

Dr. Henry S. Curtiss Guest of President Wheeler at Berkeley.

BERKELEY, Jan. 16.—Dr. Henry S. Curtiss of New York, secretary of the American Playground Association, was a distinguished visitor on the university campus today, being the guest of President Wheeler and Dr. C. H. Rieber.

Dr. Curtiss is making a western tour in the interest of the playground movement, gathering data on the subject from all the best known sources. He has been attracted to the State University by the work being done here in developing playground inschool, especially in the summer school of which Professor Rieber is dean.

Dr. Curtiss expressed himself as being delighted over the interest shown in the work of playground development in this State. He leaves Berkeley for a short trip to Fresno.

GOES TO CHINA TO WED MISSIONARY

BERKELEY, Jan. 16.—Charles W. Batdorf of 2504 Dana street, will sail for Chentu, China, next Wednesday to marry Miss Nellie Burbridge, a missionary worker in the Methodist church.

Batdorf went to China soon after his graduation in 1906. He taught physics and mathematics in the Chinese university and met and fell in love with Miss Burbridge, who was in a mission stationed near the town. When he left because of illness he told her that he was coming back for her and now after a year and a half he is keeping his word. Upon his return to China he will teach in the union school at Chentu, which was recently organized under the joint board of missions of the Baptist, Methodist and Presbyterian churches, and he and his wife will make their home there.

MAKE FOURTH ATTEMPT TO BURN OLD BUILDING

BERKELEY, Jan. 16.—The police are investigating a fourth attempt to burn an old building at 1519 Woolsey street, formerly occupied as a mission. Fire was discovered in the upper story of the dwelling early yesterday morning by D. L. Wentworth, 3130 California street, which makes the fourth time the structure has been fired within a fortnight. Firemen had to break down the front and rear doors after responding to an alarm and then found the two nearest hydrants plugged with wooden stoppers. Kerosene was found all over the house. The blaze was extinguished, with $25 damage.

The building, which is an eye-sore, is the property of the University of the Pacific at Santa Clara.

SWITCHMAN SERIOUSLY INJURED; HIT BY TRAIN

Charles Goodwin, a Southern Pacific switchman was struck by a Berkeley local at the company's Sixteenth street station yesterday morning about 9 o'clock. He sustained a fractured skull and internal and other injuries, which, it is feared, will result in his death.

While crossing the tracks, Goodwin stepped from in front of one train directly in the path of the local. He was hurled several feet and when picked up was unconscious and bleeding profusely. He was treated at the Receiving hospital.

Goodwin is a married man and lives with his family at 6[illegible]2 Pearl street, Fruitvale.

FIND BODY OF WOMAN; THINK IT MRS. ENGLE

SAN FRANCISCO, Jan. 16.—The body of an unidentified woman supposed to be that of Mrs. Marie Engle, who jumped off the ferry boat Bay City on the night of December [illegible] was found floating [illegible] last night. [illegible] The features were very much decomposed, and it was impossible to fix positively the identity of the body, which was attired in a long black coat, a blue gingham waist with white stripes, black skirt and top lace vici shoes.

Mrs. Engle was the widow of a man who died in fairly good circumstances, but fearing that his widow might remarry, he left the bulk of his fortune to various charities, leaving his widow penniless. They were formerly owners of the Waldorf Hotel in Oakland.

JOHN WILSHUSEN UNDER ARREST.

BERKELEY, Jan. 16.—John Wilshusen, [illegible] Willow street, Oakland, was taken into custody last night at University and Shattuck avenues for insanity. Wilshusen was haranguing in a manner to disturb the neighborhood, and Policeman Wilson put him under arrest.

SENIOR WOMEN PREPARE FOR INFORMAL DANCE IN GYM

MISS LEIGH STAFFORD, at head of U. C. dance committee.

UNIVERSITY OF CALIFORNIA, Jan. 16. — Reopening of college for the spring semester witnesses much activity among the senior women in preparation for their informal dance to be given next Friday evening in Harmon Gymnasium.

The proceeds of the affair are to be devoted to the fund being raised to build Griton Hall, which is to be the new senior women's headquarters. The sale of tickets for the dance is progressing. Berkeley merchants are donating refreshments and other things to be used at the dance. The building fund already contains a large sum, and work is to begin on the structure as soon as the regents select a site.

Miss Leigh Stafford is general chairman in charge of the Friday night event, and Miss Blanche Ahlers is handling the publicity department. Miss Mabel Sadler will be floor manager.

LODGEMEN GATHER IN BANQUET HALL

Relief Committee of Oakland I. O. O. F. Discuss Work of Past.

Various subjects of interest to the order and its work were discussed at the banquet given by the Oakland Relief committee, I. O. O. F., yesterday evening in the Bohemian room of Pabst Cafe in honor of the San Francisco Relief committee of the same organization. Nearly 100 members were present. J. W. Howard, president of the Oakland committee, acted as toastmaster and responses were made by Judge John J. Allen, P. G. Cunning, R. Husted, J. Reedy, David Sinclair and T. R. Joy. Each spoke on the work of the order on both sides of the bay and dwelt upon what had been done in the past and the prospects for the future.

An elaborate menu was served and special music contributed to the pleasure of the occasion. Among those present were a large number of active workers who have interested themselves in the charitable methods of the lodges.

SAYS MOTHER-IN-LAW IS CAUSE OF TROUBLE

Alleging that her mother-in-law was the cause of her husband deserting her, Mrs. Harry Ingler filed a suit for divorce Saturday in the superior court. In her charges Mrs. Ingler alleges that her husband's mother had been always interfering and made life miserable for her from the day she was married two years ago, and finally, three months ago, caused her husband to leave her. Mrs. Ingler also alleges that many times while out walking with her husband he would leave her standing on a street corner and make a dash for some saloon.

Ingler is the son of Charles Ingler, former foreman of the grand jury and formerly of the board of education and now an owner of a large planing mill.

KOCIAN TO APPEAR AT BERKELEY CONCERT

BERKELEY, Jan. 16.—With the Bohemian violinist, Jarose Kocian, as an attraction, the Berkeley Musical Association has announced a recital for tomorrow night at the high school auditorium. Kocian will be assisted by Maurice Eisner, the pianist.

The Bohemian artist will make his second appearance on the Pacific Coast Tuesday night, his former concerts having been given seven years ago on the occasion of his American debut under Daniel Frohman. During the interim he has been giving recitals on the continent. It will be the second concert of the fall season given by the association.

When The Stomach Stops

Working Properly, Because There Is Wind in It, Use Stuart's Dyspepsia Tablets to Set It Going Again.

A Trial Package Free.

The doctors call it flatulency, but unprofessional folks know it as "wind on the stomach," and a most distressing state of things it is. It is a serious condition of this great motor organ. Always annoying and painful in the extreme, at times often leading to bad and fatal results. The stomach embarrassed and hampered with wind, cannot take care of its food properly and indigestion follows, and this has a train too appalling to enumerate. The entire system is implicated—made an active or passive factor in this trouble and life soon becomes a questionable boon.

All this is explained in doctor books, how undigested food causes gases by fermentation and fomentation in which process some essential fluids are destroyed—burnt up—wasted by chemical action, followed by defective nutrition and the distribution through the alimentary tract of chemically wrong elements and as a consequence the stomach and entire system is starved. Plenty of food you see, but poor in preparation and worse than worthless.

A deranged stomach is the epitome of evil; nothing too bad to emanate from it, but the gas it generates is probably its worst primary effect and the only way to do away with this is to remove the cause. Stuart's Dyspepsia Tablets go to the root of this trouble. They attack the gas-making foods and render them harmless. Flatulency or wind on the stomach simply cannot exist where these powerful and wonder-working little tablets are in evidence.

They were made for this very purpose to attack gas making foods and convert them into proper nutriment. This is their province and office. A whole book could be written about them and then not all told that might be told with profit to sufferers from this painful disease, dyspepsia. It would mention the years of patient and expensive experiment in effort to arrive at this result—of failures innumerable and at last success. It would make mention of the different stomach correctives that enter into this tablet and make it faithfully represent all.

Stuart's Dyspepsia Tablets are not alone intended for the sick, but well folks as well, for the person who craves hearty foods and wants to eat heartily and run no risk of bad effects, they act like a charm and make eating and digestion a delight and pleasure. They keep the stomach active and energetic and able and willing to do extra work without special labor or effort. Don't forget this. Well people are often neglected, but the Stuart Dyspepsia Tabets have them in mind.

A free trial package will be sent any one who wants to know just what they are, how they look and taste, before beginning treatment with them. After this go to the drug store for them, everywhere here or at home they are 50 cents a box and by getting them at home you will save time and postage. Your doctor will prescribe them, they say there are 40,000 doctors using them, but when you know what is the matter with yourself why go to the expense of a prescription? For free trial package address F. A. Stuart Co., 150 Stuart Building, Marshall, Michigan.

NILES CANYON ROAD MAY GET MUCH IMPROVING

Chamber of Commerce Endeavors to Have Large Slice of $18,000,000 for It.

MONEY WAS RAISED BY BOND ISSUE IN ELECTION

Wish to Have Thoroughfare a Part of the State Highways.

NILES, Jan. 16.—The members of the Niles Chamber of Commerce have already found a place for a portion of the $18,000,000 bond issue which was voted for at the last election and have launched a vigorous campaign to have the Niles canyon road, with its wondrous mountain scenery, of brook, gorges and rock-covered hillsides, its easy grades and its importance in establishing a means of communication between the northeastern portion of Alameda county rich in agricultural products, and the bay cities, made a part of the state highways.

F. V. Jones and Chris Runckel have been appointed a committee of two to confer with the commissioners in charge of the disposition of the bond money, as to what portion of the fund is to be used in this county and what route for the state highway has been mapped out, if any. As soon as the report is received by the chamber, extensive plans are to be made for an aggressive campaign to obtain the necessary appropriation.

SUGGESTION MADE.

The Niles Chamber of Commerce suggests that the road be built from Niles, along the foothills passing by the Masonic Home at Decoto and finally forming a junction with the Foothill boulevard in Hayward. The most important of the bridges in Niles canyon has now been completed and the main cost would be the macadamizing of the highway, the widening of the road at certain points and the raising of the highway in the canyon bed to insure against danger from the overflow of the creek in the case of extreme high water.

If the members of the Chamber are successful in their endeavor to obtain the necessary funds Niles will have part of one of the finest roadways in the entire state.

SOMETHING BESIDES TEACHING FOR WOMEN

BERKELEY, Jan. 16.—"Opportunities for Women in Vocations Other Than Teaching" will be the theme of the addresses at the January meeting of the Association of Collegiate Alumnae, to be held Saturday at the Hotel Shattuck, Berkeley.

The speakers will be Professor E. J. Wickson, director of the Agricultural Experiment stations at the University of California; Professor A. B. Clark, head of the Department of Drawing at Stanford, and Professor O. P. Jenkins, head of the Department of Physiology, Stanford.

The program is under the direction of the Vocational Opportunities Section of the Collegiate Alumnae, of which Mrs. A. F. Lange and Dr. Isabel McCracken are the chairman.

The speakers and their wives will be among the special guests at the luncheon to precede the discussion.

Miss Lucy Ward Stebbins, a graduate of Radcliffe, recently appointed assistant dean of women at the State University, is to be guest of honor.

OAKLAND BOOSTERS TO MEET BERKELEYANS

BERKELEY, Jan. 16.—The progress and prosperity committee of the Oakland Chamber of Commerce will hold a joint meeting with the Berkeley Board of Trade tonight to consider plans for advertising the continental side of San Francisco bay throughout the United States.

Among the speakers at the meeting will be A. Howard Herman, Charles Green, Dr. H. N. Rowell, and other prominent members of the two organizations. Refreshments will be served at the conclusion of the business session.

NORBOM NOT A SUICIDE, SHE SAYS

Daughter of Dead Man Insists Father Was Killed by Another.

Police and Coroner Believe Death Was Result of Accident.

BERKELEY, Jan. 16.—While the police and coroner's office believe that John O. Norbom, the mining engineer, was killed by the accidental explosion of chemicals carried in his pocket on the ferryboat Berkeley Friday evening, his daughter, Mrs. Olaf Bals, who arrived from Shasta county yesterday, joins her mother and brother Harold in the opinion that the fatality was caused by some person other than Norbom, or was the result of an attack upon him.

Mrs. Bals, like her brother and mother, also declared it was not a case of suicide. She insists Norbom was not in the habit of carrying explosives around with him, that he had no use for anything except giant powder, and that he had great fear of explosives.

Mr. and Mrs. Bals came to Berkeley to attend the funeral, which takes place tomorrow afternoon at [illegible] o'clock. Religious services are to be conducted at the undertaking parlors by Rev. Edward Parsons, pastor of St. Mark's Episcopal church. The body will be cremated.

BALS IS SUPERINTENDENT.

Olaf Bals, who has charge of the funeral arrangements, is superintendent at the Maddox mine, in which Norbom was interested at Whiskeytown, near Redding.

He has not yet made a full investigation of his father-in-law's death, and refuses to make any statement further than that he does not believe it probable that Norbom carried explosives.

"He never ordered explosives used by us at the mine," said Bals. "I attended to that myself. The trips which he made to this city and to San Francisco were to visit his family and of making a few business arrangements."

Y. M. I. TO HOLD INVITATIONAL DANCE

California Council, No. 24, Young Men's Institute, will hold its fourth invitational dance next Friday night. The affair will be given at Adelphian hall, which will be especially decorated for the occasion.

The committees in charge are as follows:

Executive committee—A. J. Smith, John Tulloch, E. A. McAuliffe, D. F. Mannion and J. J. Mandizabel.

Reception committee—G. Vandenabeele, Paul Dufour, Edward Silver, W. Hutten, C. Currier, J. Hallon, J. D. Barry, George McCraith, W. Flanagan, F. Cullen, J. Fagan, H. Callenberg, W. J. Dwan, H. C. Gallagher, C. Raphael and F. Bothelo.

PARENTS TO URGE SCHOOL BOND ISSUE

BERKELEY, Jan. 16.—McKinley School Parents' Association will meet tonight to discuss the needs of its district and to urge the Board of Education to prepare an estimate of the money needed to improve the local school system.

Members of the conference committee in charge of the campaign expect to arouse enthusiasm in the proposed bond issue and they will proceed with a campaign of education which they hope will assure the success of the project if it is brought before the voters at a special election in April or May.

Legislature to Consider Progressive Health Laws

SACRAMENTO, Jan. 16.—As a result of the widening public health movement, several progressive measures will be introduced in the Legislature, the tendency of which will be to make the existing statutes more effective rather than to increase the authority of the State Board of Health. They are based upon recommendations from citizens and associations in all parts of the State interested in public health including health officers in public welfare associations.

COUNTY HEALTH BOARD.

One of the most important of these proposed measures is that creating a county board of health, with a county sanitary inspector to have oversight of health and sanitary conditions outside of incorporated cities. This proposal is as vitally important to the cities as to the territory not comprised within their jurisdiction.

As the cities draw their food supplies—meat, milk, vegetables, dairy products—from the country they are primarily interested in health conditions beyond their boundaries, but under existing laws do not have the authority to require sanitary conditions that would otherwise be under effective control if there were a county board of health. The cities have to accomplish health work beyond their limits in an indirect way.

FIVE OFFICERS IN BOARD.

Under the proposed law, the county board of health would be both supplementary and complementary in its work to that of the great cities. The details of the law are yet to be worked out, but it is proposed to have the board comprise five officers whose duties bring them especially close to health work, as follows:

County health officer, chairman of board; county superintendent of schools, who is in touch with many phases of health work, especially contagious diseases in the schools; district attorney, who prosecutes pure food cases; county recorder, who reports vital statistics; county surveyor, who is acquainted with local topography, stream pollution, ownership of property, etc.

Other legislation which the State Board of Health has placed itself on record as favoring, is as follows:

A law modifying the present acts relative to the pollution of streams so as to make the enforcement of its provisions practical by giving the board authority to interpret the law in certain cases, being guided by the expert reports of a sanitary engineering inspector and a sanitary chemist.

A law providing some active measures on the part of the State for the treatment of persons afflicted with tuberculosis. The California Women's Club, the San Francisco Tuberculosis Association and the Southern California Tuberculosis Association all have plans to provide tuberculosis dispensaries or clinics as well as some system of State sanatoria.

VACCINATION LAW.

A law providing that school trustees be relieved as far as possible from the responsibility of enforcing vaccination in schools, and placing the responsibility with health officers, also requiring vaccination in private as well as public schools.

A law enabling infected localities to form districts to eradicate the anopheles or malaria bearing mosquito by drainage, the application of oil or other suitable methods.

A law providing that cases of measels, whooping cough, mumps and chicken pox be taken off the list of diseases that must be quarantined, and that they be made reportable only unless an emergency demands quarantine.

A law designed to afford better sanitary conditions in public school buildings.

A law empowering the State board to establish branches of the State hygienic laboratory in various parts of the State so it may be of the greatest practical use to the people.

The extreme importance of making an increased appropriation for the continuance and development of public health work also is urged, as California has many laws which are virtually dead letters because no funds are available for their enforcement.

WOMAN PAYS FORTIETH VISIT TO HOSPITAL

SAN FRANCISCO, Jan. 16.—Kate Powers paid her fortieth visit to the Central Emergency Hospital this morning. Her coming twice a week has never caused any great remark among the hospital attaches, but when she was treated for chloroform poisoning at 8 o'clock Saturday night and came in with the same complaint at 1:30 this morning, even those used to her frequent attempts at self-destruction sat up and took notice. The woman lives at 539 Thirty-ninth avenue. For a number of years she has had pwhat has come to be known as the "chloroform habit."

On Saturday she was brought from a house on Eddy street, having swallowed considerable of the poison and was taken to the city prison after treatment. This morning she was brought from [illegible] and Fillmore streets [illegible], and once more sent to jail.

Recently she was arrested and charged with grand larceny for the alleged theft of a pin from a sporting man, but was later dismissed from custody.

ARASEE IN MONEY 13 TIMES OUT OF SEVENTEEN STARTS

Early Wright's Trick Has Enviable Record; Kirschbaum Is Tied With J. McIntyre

Arasee, Early Wright's little gelding has undoubtedly proved the sensation of the season at Emeryville by his consistent running. Although entered against the crack horses of the track in every start Arasee has been out of the money but four times during the seventeen times he has sported colors. Five times he has been first, three times second and five times third, which is a great record when it is considered that he was opposing such clever horses as Bubbling Water, Chester Krum, Spellbound and the best sprinters at the track. The distances have ranged from five and a half furlongs to all marks up to a mile and a quarter and the son of Blues has given a good account of himself on all kinds of tracks and conditions.

Of the eight stakes so far decided Arasee has captured the Opening handicap and the Lissak handicap and was in the money in two of the other five in which he ran. Early Wright deserves much credit for the honest manner in which he has raced his gelding. He brought Arasee from New York this fall with the reputation of being a high class plater but Early has proven that Arasee classes with the best handicap horses which have shown at Emeryville during the meeting.

Kirschbaum and J McIntyre ran a dead heat last week for jockey honors with six winners apiece. Buddy Glass came next with five winners and Taplin. Garner and Riddle were close behind. The record follows: Kirschbaum six, J McIntyre six, Glass five, Taplin three, Garner three, Riddle three, Archibald two, E Martin one, Callahan one, Radtke one, Kederis one, Coburn one, Gargan one, Fisher one and Hewitt one.

Great Caesar has proven a great disappointment as a racer after giving such promise as a yearling. He sold for $25,000 and worked so well that a great future was predicted for him. He is a bay gelding by Cezarion Grandma[illegible]. The man that owned him before Early Wright added him to his string and thought so much of Great Caesar that he took out a $6000 insurance policy on the gelding. Now Early is willing to sell the horse and all for $500. [illegible] sell him for it would be his luck that he would die before the [illegible] of February when [illegible] expires [illegible]

TWO YEAR OLDS' STAKE

Many high class youngsters are among those named for the four two year-old stakes of the New California Jockey Club. The Gebhard handicap at four furlongs to be run Saturday March 18 has attracted the most entries, thirty-two juveniles being named.

The Gunst stakes for fillies at four furlongs to be run Saturday February 18th has twenty one eligibles. There are twenty five colts and geldings in the Lindner at four furlongs scheduled for Saturday March 4th and twenty eight in the [illegible] at four and a half furlongs to be run Saturday March 1[illegible]th.

The entry list for the Gebhard is as follows:

EARLY WRIGHT HEADS LIST

Early Wright jumped to the head of the winning owners [illegible] Arasee's victory in the Lissak handicap. J M Crane also came to the [illegible] with a bound. The record follows:

The racing of 1910 was marked by extraordinary activity in the way of [illegible] race [illegible]. During the year [illegible] horses were bid up as against 132 in 1909, 104 in 1908 and 200 in 1907. The total amount of money involved in the bidding up transaction was $103,960, half of which went to the various racing organizations as compared with $73,905 in 1909. The Florida Live Stock and Agricultural State Fair Association was the principal beneficiary among the racing organizations, the runups at Moncrief Park totaling $18,950 as against $16,[illegible] at Oakland and $14,640 at Juarez which came next in order. The record runup of the year was that of Follie Levy, a [illegible]—$1905.

* * *

S C Hildreth duplicated his success of 1909 by again heading the list of money winning owners. The successful racing of the stars of the formidable Hildreth establishment, notably Novelty and Dalmatian, was one of the striking features of the year. Mr Hildreth did no winter racing of any account and yet his horses won virtually as much as during the preceding year when a considerable portion of his winning resulted from a winter campaign in California. Mr Hildreth's showing for 1910 is all the more remarkable for the reason that stake opportunities were scarcer than in preceding years.

ROLLS UP SCORE OF 99 AT FIFTY-YARD TARGET

Shooting a practice score preliminary to the regular shoot of the Shell Mound Pistol and Rifle Club Henry A Harris of this city rolled up a total of 99 with the pistol at 50 yards range. This is one of the biggest scores ever recorded on the Shell Mound targets and is only one short of the possible. In the regular competition Harris was outpointed by James J Gorman who scored [illegible] H W Marzolf [illegible] 63 in the regular shoot of the Independent Rifles and easily garnered the honors.

The Shell Mound club lost to the clerks of the Oakland Bank of Savings last Tuesday evening in a shoot held under the auspices of the United States Revolver Association. The score was 1012 against 1041. Henry Harris king of the Shell Mound Club shot with the bankers team. On the same evening the Shell Mounders made 1011 against the Culebra Panama team. The score from Culebra has not been received yet.

Next Tuesday the Shell Mound Club will shoot against the Osborne [illegible] and Portland Ore[illegible] teams.

Following are the scores made at the Shell Mound targets yesterday:

Shell Mound Pistol and Rifle Club pistol and revolver scores. BEAVERS NO. 2 HAVE ELEVEN PITCHERS

McCredie's Portland Northwestern League team is not going to lack for pitchers according to the personnel of the Beavers No 2 as given out by Manager Nick Williams yesterday. Already Williams and McCredie have signed up eleven flingers and it is hinted that there is still one or three more. Williams of course does not expect to use so many twirlers but he proposes to have a good list to start with and will weed out those who are unavailable.

The team as outlined at the present will include the following:

Pitchers—Jess Garrett of Portland, Casters, Dean, Williams formerly with Oakland and [illegible] one time with Cleveland, [illegible] of Oakland, Loomfield [illegible] Portland, Coast [illegible] Vett of San Francisco, a semi professional [illegible], Hill from the Presidio [illegible] from [illegible], Kelly Ryan brother of Buck and with McCredie for a time last season, Ruther, Lowell High school star, Madden from the Olympic Club team San Francisco and Yates from Gilroy.

Catchers—Harris of Toledo and Burch from the Texas League.

First base—Nick Williams.

Second base—Undecided. Depends on what is done with C[illegible].

Third base—M[illegible]norff, formerly of Seals.

Shortstop—Idulo Mansor.

Utility role—Kennedy from Eureka in Humboldt League.

Outfielders—Chase, Ort, [illegible] not traded; Miller from Burlingame Central League and Kirby a collegian from the North west.

Williams says that so far as he knows the club will train in Portland but he will not go north until he [illegible] of March.

WOLVERTON BOOSTS HOGAN AS PLAYER

Managing a baseball team is not the only position which Harry Wolverton can hold down according to the reports received from the wise ones around the training headquarters at Philadelphia and also vouched for by the display of advertising space the leader of the Oakland team has been obtaining in and around the Quaker city.

All who know Wolverton are of the unanimous opinion that he is not destined to be the manager of a minor league team for long, but will some day [illegible] a full fledged major league manager, and his record not only on the coast but earlier is given as evidence.

One of the strongest arguments is the little incident which occurred while he was running the Williamsport Club of the [illegible] State [illegible] and which shows his knowledge of human nature.

While there he seemed to have his infancy. Wolverton had many things to contend with that would turn the hair of any other man while within twenty four hours the club was full of Pugs all of whom had the greatest opinion of himself as a baseball player. One day Wolverton signed a noted pitcher with extra speed but a noted trouble maker also and [illegible] had many to keep in place. Wolverton knew that this pitcher was suffering from [illegible] and [illegible] before he joined the club Wolverton called all his trusty fighters to his side and in the following address to the homing:

HIS SCHEME WORKED

"Look here boys," he said, "you all know that X is a bug and we all have to humor him. I want all of you fellows to look up to him as if he were the Christy Mathewson of the league. Go up to him and ask his advice about pitching. Keep him [illegible] all the time and never [illegible] him."

As a result the [illegible], almost threw his arm out pitching for Williamsport that year and was in a large measure responsible for the pennant victory. All because Wolverton knew how to handle him.

Wolverton didn't forget to boost for his Oakland players who have got up to the majors and the [illegible] of Willie [illegible] will be [illegible] placed at the [illegible] Wolverton has to say on this subject.

[illegible] on my [illegible] taken from me by draft [illegible] pitcher once on Mal[illegible] going to Detroit and Moser who once pitched for the [illegible] is now [illegible] of the Boston Americans. Cu[illegible] Mal[illegible] around in [illegible] Waters [illegible]

HOGAN BEST HE SAYS

The best of the lot is easily Hogan who I think will be a sensation in the American League. He is a [illegible] on California [illegible] and hits and throws right handed. He is one of the fastest men I have ever seen going from second to home or from first to third. I don't know anybody in baseball is swifter.

He can also play any position. He is [illegible] I want to Oakland [illegible] showed that I was [illegible] ground over[illegible]. When [illegible] hurt I [illegible] Hogan [illegible] his place. He [illegible] very [illegible] position for me last season [illegible] as well as the regulars.

He is about the size of Harry Davis and is a hard clean hitter. I found him particularly good in [illegible] of the field [illegible] to be congratulated [illegible] him.

PITCHERS' HILL TOO MUCH OF ADVANTAGE

CINCINNATI, Jan 16—That the turtleback diamond is soon to be a thing of the past in organized baseball is the statement made yesterday by President Herrmann of the Cincinnati Nationals.

"I shall bring the matter to the attention of the National League at the February meeting and hope at that time to obtain their consent to allow us to employ an official surveyor and to have all the diamonds perfectly smooth," said Herrmann.

It is easy for a pitcher to hold his pitching to a safe degree of certainty when he is 18 inches above the batter.

"When I came to Cincinnati I found Beacher Mitchell and McLean batting only fairly. I examined the grounds and saw they were batting uphill against the pitcher and that the twirler always had an unfair advantage. Therefore I sent for a surveyor and we got the diamond perfectly level since which time not only Beacher Mitchell and McLean but other players as well, could hit much better. I shall see that we use the canvas covering and therefore there will be no need to have the pitcher's box higher than the rest of the diamond in order to shed the rain."

YOUNG PETER JACKSON ARESTED

Young Peter Jackson and John Willie were arrested at Winnipeg yesterday [illegible] preparing for a prize fight that was to come off at that place. The officers have made a great mistake; they should never arrest these old men for preparing for a prize fight. It's a shame they should have been taken in and sent to the home for the poor old men. Willie and Jack could hurt no one; they are like the poor old dog accused of biting who upon examination proved to have no teeth.

A man with a pair of overalls and a green sweater slipped around to the various layers and bet five and ten dollars at a crack on Likely Dieudonne to win the closing race.

SEEK PERMANENT PUBLIC SERVICE COMMISSION

Supervisors Adopt Resolutions Favoring More Than Advisory Powers for Proposed State Body

The following preamble and reso utions were submitted to the Board of Supervisors at this morning s session by Supervisor Mullins and unanimously a opted

The Board of Supervisors of A ameda county respectfully represents

'That the state legislature is onsidering several constitutional amen lments and bills which will have the ef ect, if adopted and passed of creating a public service commission with jurisdictic n over all public service corporations in the state It is proposed by most o: these measures that the powers of the c mmis sions so created be merely advisor that is the local boards will as at prese it continue their rate fixing, and reg ilating functions and the state commissi n will perform practically the same work the corporations still being given th right to carry disj uted questions to the courts

That such a commission as t ie one proposed will add to the worl of t ie legislative bodies rathe than red ice it therefore be it

ABSOLUTE COMMISSION

'Resolved That the Board of Supervisors of Alameda county respectf lly requests that instead of an ad isory commission an absolute comn issior with power to fix rates be created and that an amendn nt be adopted that will relieve the local legislative bodies of all jurisdiction and responsibility in the matter of fixing of rates or regulating public service corporations be it further

Resolved That copies of this resolution be forwarded to the members of the state legislature and to all boards of supervisors city councils and boa ds of town trustees in the state and that a committee of three including the chairman be appointed to secur the desired legislation and the co operation of other similar boards through ut the sta e

EXPLAINS BILL

After the clerk had finished reading the document Supervisor Mullins said in explanation that the resolution contemplated taking the whole matter of fixing rates and regulating public service corporations out of the hands of ll local legislative bodies and transferring jurisdiction over such subjects wholly to the state commission provided for by law

This is he said consistent with existing laws and will relieve the local bodies from all responsibility By taking the course provided for in the resolution the state commission will be clothed with the power to act and become a responsible and not a merely advisory body It i the rule which is in force in New York and Massachusetts The state commission will have in its possession all of the data bearing upon the subject of corporation rates and therefore in a much better position to fix rates than any local legislative body possibly can be In fact the local body will have to apply to the state commission for the data which will gather bearing on rates I believe that the proper thing is to put up to the commission the whole responsibility for fixing th rates

WATER RATES

Mr Foss 'What rates? Do they include water rates?

Mr Mullins Yes, water rates transportation rates and all other matters pertaining to the public service corporations over which the state has control

Chairman Horner The state takes the taxation of corporations entirely out of the hands of local bodies and no county will derive any revenue from them after this so it seems reasonable that the whole responsibility of fixing rates should be passed up to the state commission

Mr Bridge There is another reason why this resolution should pass If the state commission should merely act in the capacity of an advisory board it might make recommendations to the supervisors which might not be acceptable to them and reject This might cause a conflict between the two bodies I am therefore heartily in favor of the resolution as it will transfer the whole responsibility for the fixing of all public service corporation rates on the state commission and remove all possibility of conflict

A motion to adopt was made by Mr Mullins and seconded by Mr Bridge and it passed by a unanimous vote

Chairman Horner appointed Supervisors Mullins and Kelley to constitute the committee with himself

WIFE'S AFFINITY FLEES HUSBAND

Claude N. Berry Turns Tables, Accuses Wife and Gets Divorce.

When Claude N Berry of Alameda filed his answer and cross complaint to a divorce in the suit instituted against him in the Superior Court by Sarah M Berry charging her among other things with having an affinity in the person of Fernando Galvez a married man also residing in the Encinal city he abducted their little son and went to Kentucky In due time Judge John Ellsworth tried the case Mrs Berry's testimony being introduced in the form of a deposition

Mrs Berry charged Berry with habitual intemperance and extreme cruelty but in denying the wife a decree and granting the divorce to Berry the court held that Mrs Berry was the offending party Judge Ellsworth said that it had been shown that on one occasion Berry did strike his wife but that the assault was cause l by his finding Galvez in his house

In view of this Judge Ellsworth held Berry was warranted in striking his wife and that the assault did not constitute extreme cruelty

Judge Ellsworth's decision leaves no room for doubt but that Galvez and Mrs Berry were soul mates He says they were frequently together at the Berry home when Berry was away and at other places that they drank and got drunk together and that Mrs Berry often called Galvez endearing names such as ... and ...

The decree also gives to Berry the custody and control of the child

AMERICAN EXPERT PRAISES LOCAL PLAYGROUND

Dr. Henry Curtis Declares Oakland Parks Are Up to High Standard.

Dr Henry Curtis, one of the directors of the Playground Association of America visited the playgrounds of Oakland and Alameda yesterday in company with the directors of the local playground commission and those of Alameda, and praised the excellent work which has been accomplished since the grounds were open to the children He offered valuable suggestions to the directors for improvements

While leaving De Fremery Park he said by way of compliment that it was the best located playground that he had ever seen and stated that it was very well laid out He also spoke highly of Bushrod playground

The distinguished visitor was one of the guests of the playground commissioners dinner which was held Friday evening in the Young Men's Christian Association building where the different phases of the playground movement were discussed

AIMS TO ABOLISH EXAMINING BOARD

Controllers Proposed as Substitute Would Supervise All Business and Finances.

SACRAMENTO Jan 16—One of the most important measures yet introduced in its possibly sweeping effect on the administration of the financial affairs of the state was offered to the assembly this morning in a bill by Assembly Benedict to abolish the State board of Examiners and substitute a State Board of Control

The new board would have supervision over all state business and finances and would employ a corps of fiscal agents one for each state institution to keep a constant supervision over the expenditure of all state monies

GOVERNOR S APPOINTEES

The bill provides that the board consist of three members appointed by the Governor The present board of examiners consists of the Governor the attorney general and the secretary of state It is assisted by a large office staff and it is said that on account of the pressure of other duties on the three members of the board much of the important work must be done by the assistants

It is proposed to remedy this by the employment of the fiscal agents and a bureau of public accountants which will carefully check all accounts of public institutions The boards of managers of various institutions will not be abolished by the change but their acts will be subject to the approval of the new board and their expenditures of money will depend upon the favorable reports of the fiscal agents

BILL FOR UNIONS

A bill introduced to protect labor unions was introduced by Assemblyman Griffiths It makes it a misdemeanor for an employer to require a pledge of workmen not to belong to a union or to advertise for workmen during a strike without stating that a strike is on Another bill similar to the Walker bill introduced in the senate prohibits the employment of strikebreakers without securing permits from the board of supervisors

Other bills provide for the creation of an aerial commission consisting of three members appointed by the Governor to regulate air traffic the compelling of street car companies to make transfers good all day of their issue and the recall referendum and initiative in cities of the fifth and sixth class A bill introduced by Assemblyman Mendenhall makes it a felony to steal a dog a Hungarian pony or a Shetland pony

WHO IS WHO IN TURFDOM

Paddock and Ring Gossip Picked Up Here and There at the Oakland Track.

Oakland and San Francisco lovers of thoroughbreds may be treated to a match race in the near future between two crack juvenile performers Amon sporting the gay colors of George Berry and Oakland who has brought the bacon home on three different occasions for Owner Oswald Blanchi and his following The match race will be to satisfy the followers of the game as to who is the best colt in training in California George Berry was far from being convinced that Oakland is a better colt than Amon and told the owner of Oakland that the win of the son of Bearcatcher Saturday was a fluke Berry said that he will bet anything from $1000 to $10 000 that the fleet footed son of Pupeur D cin take Oakland's measure

Johnson N Camden the millionaire breeder and horseman and member of the Kentucky Racing Commission arrived in New York the other day to take up in a tentative way with the Jockey Club the question of the establishment of closer relations between the Kentucky State Racing Commission and the governing body of the turf in the East with a view to the unification of rules Years ago there was an alliance between the New York Jockey Club and the governors of the turf in the West but disregard of the forfeit list of the former on the part of the latter together with other infractions of the agreement caused the severance of those inter relations which mean so much for the general good of the sport of racing in this country

Now that Owner and Trainer H B Bedwell has turned out his horses after waiting two months to get relief from the Kentucky Racing Commission as to the reinstatement of himself and his useful stable of thoroughbreds a recent dispatch from Lexington says that Vice Chairman Young has called a meeting of the State Racing Commission for February 14 It is expected that relief will be forthcoming for Mr Bedwell who is in distress in California with a big stable of horses which was ruled off at Latonia last July There is a chance that Bedwell and his horses will be reinstated

RHEUMATISM

PURIFYING THE BLOOD THE ONLY PERMANENT CURE

No case of Rheumatism was ever cured except by a thorough purification of the blood just as long as the blood remains charged with fermenting uric acid poison the painful disease will continue The pains and aches of Rheumatism are simply superficial effects of the impurities in the circulation, and sometimes may be temporarily relieved by the application of plasters liniments, hot cloths, etc But the person who trifles with this dangerous disease by depending on local treatment alone is certain to pay for the mistake with constant suffering later on S S S. cures Rheumatism in the only way it is possible to cure the disease It goes down into the blood, and removes the uric acid from the circulation, so that the nerves, bones, muscles and joints are lubricated and fed with nourishing elements instead of being continually irritated and inflamed with the sharp uratic impurity. When S S S has cleansed and purified the blood, the pains and aches cease, all inflammation disappears, stiffened muscles are made pliant, and every troublesome symptom of Rheumatism is permanently corrected. NEWS OF THE OIL FIELDS

80,000,000 BARRELS IS CALIFORNIA OIL RECORD

BAKERSFIELD, Jan 16 — In discussing the oil situation the Californian says

"There is more hopefulness over the oil situation, so far as production and consumption are concerned, than has been evident in many weeks This is due to indications of a broadening market and is quite independent of any fate that may befall oil land measures in Congress

"There are some local men sanguine enough to believe that consumption will be equaling production before March is out. With a total production last year of nearly 50 000 000 barrels there are some 18,000,000 barrels left in storage, but this quantity is expected to disappear with improved transportation facilities and the installation of oil burners in the great smelters and stamp mills of Nevada Arizona and Mexico

"At the same time all the Western railroads that are not already using oil are having their locomotives equipped with oil burners as quickly as possible and it will be but a short time before the call of the battleships for oil will be heard through the fields

SEEK MARKETS

"The Independent Producers' Agency has made heroic efforts to find markets and to broaden those already existing It seems to be on the verge of having its endeavors rewarded, and now even with many pumping wells temporarily closed down it is freely predicted that the production of oil in 1911 will reach a total of $100 000 000 barrels and it all will be marketed Oil men who have been in the dumps for many weeks are beginning to look pleasant again

The Obispo, on section 32 12 23 is constructing a new camp on the property and preparing to begin operations for drilling very soon

The Adeline on section 2 11-24 is drilling on well No 11 a good showing of oil being encountered at a depth of 700 feet

The Adeline Extension is drilling on well No 6 A short time ago heavy pocket of gas was struck The well did considerable blowing out and it was necessary to temporarily suspend operations

The Union Oil Company's Sheridan well on section 10, is down about 5000 feet It was unsuccessful in shutting off the water and bridge and cemented the hole at 4000 feet The company expects to drill through the cement and go on down, if successful in shutting off the water

DOWN 2000 FEET

The S K D on Section 15, 32-23 is down about 2000 feet on well No 12 It middle of February and is going down after the same sand the Regal Oil Company struck on Section 14

The Pacific Midway on Section 15, 32-23 is down 2400 feet with its well It had considerable trouble with the pipe, but everything is going nicely now

The Marion Oil Company on Section 15 32-23 has completed well No 2 No 1 well is a producer, but has been shut in for some time

The Combination on Section 22 32 23 is down 2600 feet and has struck a light oil sand Before reaching the 2600 feet depth the drill passed through two strata of oil sand but oil could not be obtained in paying quantities and it was decided to go deeper

Everything seems to be quiet in the Elk Hill territory Little development work is going on as every one seems to be waiting on his neighbor to see what results are obtained

The Honolulu on Section 14, 32-24, is preparing to bring in well No It is down about 3000 feet and has been having a good production of gravity oil The hole is bridged at present but it is expected to be opened up soon

The Elkhorn on section 26 32-23, has finished rig No 3

The Esperanza is acquiring considerable territory and is contemplating doing extensive development work both in Maricopa and Midway districts It has established a splendid new camp in Maricopa

The August located on Section 31, 32-23 has taken an additional 40 acres located near the Essex Oil Company on Section 6 11 23 It will prepare to drill at once

The Midway Northern on Section 32 11 3 is building number 2 rig and is down 700 feet with well No 1

FOOD PRICES TO DROP BY MAY 1

Cold Storage Butter, Eggs, Poultry and Cheese to Be Thrown on Market.

CHICAGO, Jan 16 —Millions of pounds of butter, eggs, cheese and poultry held in the cold storage warehouses here will be thrown on the market before May 1st and a general tumbling of food prices is expected at once, according to commission merchants

Numerous Chicago commission men are said to be facing failure as a result of their efforts to maintain an artificial price on the necessities of life The inability further to uphold this price is said to be due to a combination of circumstances chief of which are the open winter of 1911 and the banner crops of 1910

Three commission men failed last week as the result of holding great quantities of butter which they purchased at an average price of 31 cents a pound and now are unable to market for more than 27 or 28 cents While wholesale prices of butter and eggs have dropped decidedly within the last few weeks there has been no decline in retail prices

Much of the produce to be unloaded on a falling market has been in the warehouses for as long as five years

Thirty-two warehouses are known to have 44 000 000 pounds of butter eggs and poultry The increased sale of oleomargarine is given as an added cause for the situation the commission men are now facing Butter is 6 cents a pound lower wholesale than it was a year ago and is selling at the lowest figure in five years

An indication of the decline in the last ten days is shown in the following

January 5—Eggs fresh 34 cents, prime 30 cents firsts 30 cents

January 16—Eggs fresh 33 cents prime 29 cents firsts 28 cents

January 5—Butter extra creamery 29 cents firsts 25½ cents dairy 25 cents

January 16—Butter extra creamery, 27 cents firsts 22 cents dairy 23 cents

The wholesale price on smoked meats beef and pork has been slightly reduced in price

PIT DEPRESSED BY FOREIGN NEWS

Larger Russian Shipments and Report of Good Crops Have Bad Effect.

CHICAGO Jan 16 — Larger Russian shipments than looked for had a depressing effect on wheat prices today Liverpool also reported freer and cheaper Argentine offers with much pressure to sell cargoes from Australia News was at hand that beneficial rains in North India assured a good harvest

Moderate temperatures throughout the winter wheat belt of the United States were likewise regarded as favorable to the bear side of the market The market opened ⅛@¼ to ⅝c lower

May started at 100⅝c to 100¾@100⅞, a loss of ⅛@½ to ⅝c but rallied to $100⅞ @101

In the last half of the day tired owners tried to unload but found that the market had support at only much reduced figures The close was weak with May at 100¼@100⅜, a net loss of ⅞@1c

Expected liberal receipts of corn put the bulls on the defensive May opened ⅛ to ⅜ down at 49⅜ to 49½c and steadied at the last named figures

The market slumped with wheat but rallied because of reports that the European holding supply had been nearly doubled The close was weak with May ⅛c down at 48⅞ Close

Oats were slow May started a shade off at 34¼ and sold at 34⅜@34½c

Liquidation in butter and eggs gave a heavy tone to the market for hog products

First sales were 2½c lower to [illegible]c higher with May options at 18$97½ for pork $10 12½@ 10 07½ for lard and $10 00 to $10 002½ for ribs

Wheat May 100¾ July 95¾@96 Sept 94⅝

Ribs—Jan $10 52½

CHICAGO, Jan 16 —The Inter Ocean says A feature of strength in the wheat market is the concentrated holdings of the surplus by strong local interests which for the time being control the market There is no evidence of their liquidation and they have no intention of liquidating until they are convinced that their position is wrong They are looking forward to unusual nervousness during the active crop scare season which will soon be here and expect that there will be sufficient new buying to advance prices Comparative little wheat held now shows a loss and a great deal exhibits a fair profit Looking at the situation in a broad way the belief is general that there is more latitude for possible profits on the bull side above $1 than there is below it All the accidents are apt to be in favor of the bull the crop scares the decreasing supplies at home and all the other features to favor the bull according to the general theory The country has sold corn freely all of which has been hedged in the pit the volume being so large as to scare out many of the staunchest bulls in the closing days It is the belief of cash people that a good part of the business for this month's loading here has been filled and that lighter shipments are to be expected

LIVERPOOL Jan 16 —Broomhall says Wheat market opened easy and lower and following the opening prices further declined ⅛d to ¼d Selling was in the way of realizing on the weakness in American markets on Saturday larger Russian shipments than expected freer and cheaper Argentine shippers offers There was also pressure to sell Australian cargoes and the general market lacked support At midday there was a weak undertone with prices ⅛d to 1d lower than Saturday Corn opened ⅛d to ⅜d lower Following the opening the La Plata trade held unchanged while American grade further declined ⅛d thus gaining ⅝d decline since Saturday Price of American were increased for sale and it is feared market has been overbought The spot demand was very small

EFFORT TO BRACE UP MARKET FAILS

Wall Street Shows Losses in Excess of the Day's Gains.

NEW YORK Jan 16—The stock market opened irregular today with a sprinkling of gains and losses the latter predominating Some strength was shown by Lehigh Valley but this was offset by declines in New York Central and other active issues Trading was light except in United States Steel and Reading

Spasmodic efforts to stiffen the market by bidding up special stocks were defeated by persistent selling by professionals who met every rally with considerable stock New York Central Amalgamated Copper and American Smelting lost a point below Saturday's closing and other active issues a large fraction

The market closed heavy Talk of increased dividend on Norfolk and Western accounted for the heavy buying of the stock and the four per cent convertible bonds both issues selling above $104 International Paper preferred also made a sudden upward spurt of over 2 points Elsewhere the movement continued narrow and devoid of significance with prices ruling fractionally below Saturday's final figures

Business fell off to normal proportions but fluctuations were mainly unimportant although there was a period of weakness in Pennsylvania which went off to $1 26⅝ Louisville & Nashville on the other hand improved over 1 point the rise being attributed to gratification over the unprecedented values of cotton exports which demonstrated the increasing prosperity of the south

ADD WALL

Another slight selling movement in Reading and U P was short lived and had no material effect on the general market which was unusually torpid Round amounts of steel were purchased around 76 with this stock furnishing as usual a big percentage of the local dealings

That day is now!

Shortly after his election to the Presidency Theodore Roosevelt visited Oakland. In a letter written in Oakland at that time to a friend in Washington he said: "Oakland is a city, just across the bay from San Francisco, where one finds the soft air of Italy and the beauty of English villages combined with a spirit of Western Progress and commercial advantages which will some day, as far as I am able to judge from my limited investigations, make it the greatest railroad terminal on the Pacific Coast." The time is now.

BESIDES the remarkable investment and ideal home opportunities to be had in bustling, beautiful Oakland, this city, with it perfect public school system, including elementary, grammar and high schools, offers educational advantages second to none. Oakland is also noted for its many colleges—technical business and professional. Adjoining Oakland is the University of California, the second largest in the United States. Write for souvenir book of views, free.

Sneak-Thief Snatches Jewels Worth $1500

Wife of Wealthy St. Louis Merchant Victim of Pickpocket at the Depot.

LOS ANGELES, Jan. 16.—Rushing up behind Mrs. Frederick Capp, wife of a wealthy St. Louis merchant, as she stood with her daughter upon the platform of a railroad station last night, a thief snatched her pocketbook and filled with more than $1500 worth of diamonds. Mrs. Capp had $3000 in currency hidden in her clothing. The thief missed that.

FIRE HORSES KILLED BY LIVE POWER WIRE

FRESNO, Jan. 16.—While running to a fire two horses attached to a chemical engine were killed instantly when they stepped on a live wire which had fallen across the street. The animals struck the wire and dropped dead in their tracks. The fire was caused by a broken power wire and destroyed a barn and an automobile.

CHICAGO CLERGYMEN WAGE WAR ON SALOONS

CHICAGO, Jan. 16.—Hundreds of Chicago clergymen yesterday preached sermons against saloons and urged their congregations to join in the anti-saloon fight. The day had been set apart especially by the Chicago local option committee of the Anti-Saloon League as a rally day in the campaign to obtain 100,000 signatures to the petition to be filed February 4 to place the saloon question on the ballot at the April election.

TO CARE FOR FIREMEN.

NEW YORK, Jan. 16.—A new operating room equipped for all operations has just been opened at New York fire headquarters. A staff of six surgeons will be there day and night to look after sick and injured firemen. There were 806 cases of sickness and twenty-six cases of injury among the firemen of the two largest New York boroughs last year.

ORDINANCE NO. ---

AN ORDINANCE GRANTING TO THE CENTRAL PACIFIC RAILWAY COMPANY, A RAILROAD CORPORATION, AND TO ITS SUCCESSORS AND ASSIGNS, THE RIGHT, PRIVILEGE AND FRANCHISE TO CONSTRUCT, MAINTAIN AND OPERATE, FOR THE PERIOD OF FIFTY YEARS, A SINGLE OR DOUBLE TRACK RAILROAD OF STANDARD GAUGE, TOGETHER WITH ALL NECESSARY SWITCHES, CROSSINGS, SIDETRACKS, CONNECTIONS, POLES, WIRES AND OTHER NECESSARY APPLIANCES, APPENDAGES AND ADJUNCTS, AND TO PASS THEREON WITH CARS AND TRAINS, ALONG SEVENTH STREET, IN THE SAID CITY OF OAKLAND, FROM AND CONNECTING WITH THE TRACKS OF SAID APPLICANT AND THE SOUTHERN PACIFIC COMPANY AT THE EASTERLY TERMINUS OF WHAT IS KNOWN AS THE OAKLAND MOLE TO AND CONNECTING WITH THE TRACKS OF SAID APPLICANT AND SAID SOUTHERN PACIFIC COMPANY ON PROPERTY OWNED BY SAID APPLICANT AT OR NEAR THE INTERSECTION OF FALLON AND SEVENTH STREETS, IN THE SAID CITY OF OAKLAND, SAID SINGLE OR DOUBLE TRACK RAILROAD TO BE ALONG AND UPON THE LINE NOW USED AND OPERATED BY SAID CENTRAL PACIFIC RAILWAY COMPANY ON SAID SEVENTH STREET, THROUGH ITS LESSEE, THE SOUTHERN PACIFIC COMPANY, AND TO BE OPERATED BY ELECTRICITY OR OTHER LAWFUL MOTIVE POWER (EXCEPT STEAM LOCOMOTIVES).

WHEREAS, the Central Pacific Railway Company, a railroad corporation, has applied to the Council of the City of Oakland for the right, privilege and franchise hereinafter set forth; and

WHEREAS, the application and petition of said Central Pacific Railway Company for said right, privilege and franchise was accompanied by a petition in writing of the owners of more than two-thirds of the front feet of lands upon those parts of the street to be used by said Central Pacific Railway Company for said railroad, praying that said right, privilege and franchise be granted to said Central Pacific Railway Company; and

WHEREAS, this Council has determined that said petition was in fact signed by the owners of two-thirds or more of the front feet upon those parts of said street to be so used; and

WHEREAS, this council duly fixed a time and place for the hearing of said petition and for the consideration of the granting of the right, privilege, permission and franchise therein prayed for, and caused notice thereof and of the time and place thereof to be published for two weeks in the official newspaper of the City of Oakland; and

WHEREAS, the free use of said streets so to be used by said railroad will not be unnecessarily obstructed by said use; and

WHEREAS, due compliance has been had with all the matters required by the charter of said City of Oakland, and all notices required by law have been duly given, and all matters, acts and things precedent to the granting of the right, privilege, permission and franchise hereinafter set forth have heretofore happened, been done and performed in accordance with law;

Now, therefore, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF OAKLAND, as follows:

SECTION 1.—The right, privilege and franchise is hereby granted to the Central Pacific Railway Company, a railroad corporation organized and existing under the laws of the State of Utah, and doing business in the State of California, and to its successors and assigns, for the period of fifty (50) years from and after November 23rd, 1910, to construct, maintain and operate a single or double track railroad of standard gauge, together with all necessary switches, crossings, sidings, sidetracks, connections, poles, wires and other necessary appliances, and to pass thereon with passenger cars and trains, but not freight cars nor freight trains, to be operated by electricity or such other improved mode of operation as may be authorized by law (except steam locomotives) along Seventh street, in the said City of Oakland, from and connecting with the tracks of said applicant and the Southern Pacific Company at the easterly terminus of said Mole, to and connecting with the tracks of said applicant and the Southern Pacific Company on property owned by said applicant at or near the intersection of Fallon and Seventh streets, in said City of Oakland.

SECTION 2.—Said railroad tracks to be constructed and maintained upon the route hereinbefore described shall be single or double, and said tracks shall be constructed and maintained so as to conform as nearly as practicable to the official grades of said streets, and in case said grades are at any time changed said track shall be constructed and maintained to conform as nearly as practicable to such changed grades.

SECTION 3.—In the construction and maintenance of said railroad tracks, switches, crossings, sidings, sidetracks, connections, poles, wires and other appliances and adjuncts necessary to the operation thereof, over, along and upon the route hereinbefore described, and in the operation of cars and trains thereover, said Central Pacific Railway Company, its successors and assigns, shall comply with all lawful provisions of the statutes of the State of California and the charter and ordinances of the City of Oakland in relation thereto.

SECTION 4.—Said Central Pacific Railway Company, its successors and assigns, shall construct culverts under said tracks at street crossings where deemed necessary by the Board of Public Works, or its successors, for the purpose of draining surface water across the streets upon which its tracks are maintained, and keep the same constantly in repair.

SECTION 5.—The work of changing the present motive power from steam to electricity, in the operation of said railroad between the easterly terminus of said Mole and said Fallon street, must be commenced in good faith within not more than six months from the taking effect of this ordinance, and said change shall be completed and said road operated between said easterly terminus of said Mole and said Fallon street by electricity or by some other improved lawful motive power other than steam within three years after the taking effect of this ordinance; PROVIDED that until the expiration of said period of three years the said Central Pacific Railway Company may operate said railway by use of steam locomotives. And if said change is not so commenced and completed, and said railroad so operated within the aforesaid times, this ordinance shall be void without any action of the Council of the said City of Oakland, or otherwise, unless the commencement or continuance of said work or the operation of said railroad be enjoined or restrained by legal proceedings.

SECTION 6.—In case of failure or neglect of said Central Pacific Railway Company, its successors or assigns, to operate said railroad in good faith at any time after three years from the taking effect of this ordinance, for the period of ninety consecutive days, unless such operation be prevented by the act of God, or be enjoined, restrained or prevented by legal proceedings, the Council of the City of Oakland may declare the right, privilege and franchise hereby granted to be forfeited and abandoned, and said right, privilege and franchise shall thereupon be forfeited and abandoned, and said railroad and the poles, wires and appurtenances thereof shall thereupon be removed from said streets and portions of streets occupied thereby, and said portions of said streets shall thereupon be restored to the same condition as the remaining portions of said streets, and said Central Pacific Railway Company, its successors and assigns, shall forfeit to the City of Oakland the sum of $1000 for each month that it or they shall fail or neglect to so remove said tracks and restore said streets.

SECTION 7.—United States Mail Carriers while engaged in the actual discharge of their duty, regular police officials, firemen in uniform, all firemen, whether in uniform or not, when going to or from fires, and all electricians while on duty in the employ of the City of Oakland, shall be allowed to ride free on the railroad operated hereunder.

SECTION 8.—The switches, crossings, sidings, sidetracks, connections, poles, wires and other necessary appliances, appendages and adjuncts herein authorized shall be, in so far as the public streets, avenues, or places may be occupied or used for such purpose or purposes, constructed only at such places and in such manner as shall be first approved by the Board of Public Works, or its successors, of the City of Oakland.

SECTION 9.—Said Central Pacific Railway Company, and its successors and assigns, shall, within eighteen months after the taking effect of this ordinance, pave with a durable asphalt pavement the entire roadway of Seventh street from the easterly end of the Oakland Mole to the easterly end of Seventh street, at or near Fallon street, including the space between its tracks, and it must also lay and construct granite curbs along the sidewalk upon each side of Seventh street within the boundaries mentioned, where not already laid—all in accordance with the specifications for the doing of such work which are required and necessary in the City of Oakland, and to the satisfaction and approval of the proper officials of said city; but said railroad company, its successors or assigns, shall not be required to keep in repair any portion thereof except between its tracks and along and within two feet upon each side of the tracks occupied by the Company.

SECTION 10.—Said Central Pacific Railway Company and its successors and assigns shall annually, during the life of this franchise, pay to the City of Oakland thirty-five (35) per cent of the net annual income accruing from the operation of the railway, the franchise for which is hereby granted. The said net annual income shall be deemed to be the remainder or balance of the gross annual earnings accruing from the operation of said railway after there shall have been deducted therefrom operating expenses and taxes, which shall always be assumed to be seventy (70) per cent of the said gross earnings, and after deducting also therefrom an amount equal to five per cent interest and two per cent sinking fund upon the cost of building, installing and equipping said railway, including the paving of Seventh street, which said total cost is assumed to be and for the purposes hereof shall be considered to be $725,500.

The said gross earnings of the railway, franchise for which is hereby granted, shall be deemed to be a sum of which the total amount received from sales of tickets at all stations located on the line of said railway, the franchise for which is hereby granted, to and from San Francisco and to and from all stations in Oakland, and all cash fares collected on cars on said railway, the franchise for which is hereby granted, shall be fifty-two (52) per cent, that is to say, the gross earnings of the railway the franchise for which is hereby granted shall be deemed to be and shall be considered the sum obtained by estimating upon the basis of such ticket sales and cash collections and assuming the total of such gross earnings to be an amount of which such ticket sales and cash collections shall be 52 per cent. The books and accounts of the Central Pacific Railway Company, its successors and assigns, shall always be kept so as to show accurately the earnings of the said railway, franchise for which is hereby granted, and the City of Oakland or its duly authorized representative shall at all times have access to said books and accounts for the purpose of ascertaining the said earnings and the proportion thereof due to the City of Oakland.

SECTION 11.—Payments hereunder shall be made on July 31 and January 31 in each year for the six calendar months preceding each of said months. The first payment shall be made on July 31, 1911, for the period to and including June 30, 1911, during which said railway shall be operated after the taking effect of this ordinance.

SECTION 12.—This ordinance shall be in full force and effect from and after its final passage and approval.

In Council, Oakland, Cal., Jan. 5, 1911.

ATTACK TO BEGIN ON ROOSEVELT POLICIES

Conservation Ideas of Former President to Be Bone of Contention.

COLORADO DECLARES ITS DEVELOPMENT CURTAILED

Supreme Court Will Take Up Constitutionality of Forest Reserves.

WASHINGTON Jan 16—A[illegible] the conservation policies inaugurated by the Roosevelt administration more serious probably than any heretofore mad will be contained in an appeal next week to the supreme court of the United States to declare unconstitutional the creation of the big forest reservations of the West. Failure to win on this proposition is not to end the campaign of the anti conservationists. They have prepared to fight a step further against the alleged independence of the forest reservations from the state laws on the theory that the federal government in creating them holds the land merely as a big land proprietor and not with any prerogative of sovereignty.

BEGINS IN COLORADO

The fight has arisen out of the attempt of the United States to enjoin Fred Light a Colorado cattleman from allowing his cattle to trespass on the Holy Cross forest reserve in that state. Despite Light's claim that the formation of the reserve without the consent of the state was in violation of the federal constitution and that action for trespass could not be maintained under the Colorado laws unless the land in question had been fenced the federal circuit court issued the injunction. The case was appealed to the supreme court and it was advanced for oral argument on Monday January 23d.

COLORADO JOINS FIGHT.

Colorado has joined in the fight against the federal government. Attorney-General John T. Barnett heads the corps of attorneys carrying on the fight for Light. Among the attorneys are James H Teller and former Senator Henry M Teller. An outline of the argument they will present to the court has just arrived in Washington in a brief.

The brief develops the argument that by withdrawing from settlement and improvement the large areas of land the Western states are not being treated on an equality with their sister states and in violation of the constitution.

"Other states were left free to develop through the settlement of public lands within their borders—the settlers having free pasturage upon such land and timbers therefrom for their necessities—until the entire area of lands having any value become private property. It is argued in the brief. To withdraw large bodies of land is to deprive a state of these advantages and to deny to it constitutional equality with other states.

DEVELOPMENT CURTAILED

With one fifth of its area withdrawn from development and permanently exempt from taxation Colorado has been curtailed greatly in its right to develop and secure increase of revenue it is declared. It is shown that the total forest reserve in Colorado is equal to the area of the state of Connecticut New Hampshire and Massachusetts.

The question is asked as to what is the legitimate end within the scope of the constitution to be served by the system of reserves. According to the brief the general answer is that it is to conserve the national resources by providing for a continuing supply of timber regulate the flow of streams and preserve power sites from being monopolized.

NO WORK FOR GOVERNMENT

It is contended that the federal government was not created to carry on such a work except the general welfare clause of the constitution [illegible] being broad enough to include this object. Even if the power did exist it is argued it could not be exercised without the consent of the state directly affected.

S. R. O. SIGN HUNG OUT AT BELL; PROGRAM FAIRLY SHINES

MERRITT and LOVE, comedy team, at the Bell this week.

It was not any unusual demonstration along San Pablo avenue that attracted the crowds of people that were congregated there yesterday afternoon and evening unless the fact that the Bell Theater had advertised that for this week only they were to show a film of motion pictures of the disaster in San Francisco might be so termed. At least it is a fact that the mere announcement that such a picture was to be shown resulted in the turning away of a great concourse of people who were unable to obtain even standing room at this popular place. In conjunction with the remarkable motion picture of the fire of 1906 across the bay and the scenes incidental and immediately following the catastrophe the Bell management have arranged a bill that is meeting with great favor.

START FUN

Merritt and Love start the fun with a bristling act of brand new anecdotes and musical quips. There is nothing exaggerated nor unnatural about them. They are simply the essence of humor and their line of guff gets over in capital style.

"Dainty as a bit of Dresden china" is the manner in which one of the foremost critics of the coast speaks of the unique little comedietta that is offered this week by Stephen Grattan & Co. Part of this sketch is a demure little woman who inadvertently has been locked out of her apartment at the unseemly hour of 3 a m.

Grattan in the role of homeward turning clubman discovers her shivering in front of the door of her apartment house which of course happens to be his also. There is quip and jest passed an attempt at lovemaking and an altogether pretty little dialogue between the two which is cleverly conceived and as cleverly portrayed. With it all there is plenty of fun—it moves quickly to a climax and all be was through Locked Out at 3 A M is as welcome a diversion in vaudeville tabloids as has come this way in a long time.

ALL TO GOOD

Lucy Tongs solo contributions are all to the good. Seclude her from the view of her audience and many I warrant would swear it was the voice of a strong husky lunged basso profundo. She's only a little midget of a thing but she grinds out nothing but deep noted songs, old though they may be but never attempted by others than those with the deepest range and never by a woman supposedly singers of the lighter arts only.

The American Trumpeteers Trio show distinct class in a melodious concert on a variety of musical instruments. The two young ladies of the trio are adepts in music play a diversified number of tuneful tooters while the gentleman of the company is strong on the cornet.

Another trio the Stubblefields offer a remarkable combination of sensational gymnastics and pantomime comedy. They do a quick disrobing act from suspended trapezes that is great and for grace in action and diversity in accomplishment they are hard to beat. "Juntress is a female impersonator who does not caricature the fair sex but impersonates it in its most beautiful and striking phases.

FIGHT ATTEMPTS TO STOP PLAGUE

Chinese Oppose Burning the Bodies of Victims Killed by Scourge.

PEKIN Jan 16—Reports from Harbin say the Chinese are vigorously opposing the summary disposition of the bodies of those who have died from the bubonic plague. The authorities do not care burn them, the people desiring that they remain intact so that their ancestors may recognize them in the future life.

They also oppose the burning of houses, some of which contain the dead bodies of entire families. Some of the corpses have remained in the city for days but they are now being taken to the open country where trenches for their burial have been prepared.

It is reported that the Russians in Harbin are not concerning themselves with the Chinese section although they are dealing drastically with the Chinese within the Russian city.

RAISE OUT CRY

The Chinese newspapers are raising an outcry and bringing forward serious charges of persecution and burial alive. Members of the legations who constantly recommended measures to the Government are suggesting censorship of the press.

The plague is of a very virulent type. Death usually occurs within forty eight hours and not more than one per cent of the cases have ended in recovery. Dr G E Mesny a French physician, who gave himself up to the work of combating the disease died heroically. When he realized that he was attacked by the plague he isolated himself in his room in a hotel drafted his will and wrote farewell letters. He begged his friends not to notify his wife of his illness and died alone.

FIGHT SPREAD

Already the doctors recognize the hopelessness of attending to those stricken and they are devoting their energies to fighting the spread of the contamination. It is feared some of the Manchurian villages have been entirely wiped out. The intensity of the cold weather has caused the people to remain indoors thus fostering infection.

The danger of the plague getting a foothold in Peking is considered slight as train service to and from the infected districts has been stopped. An American educated woman doctor has gone from here to Harbin as well as several others. The doctors have been inoculated and are equipped with special costumes and masks. The Government is insuring each foreign volunteer for $10,000.

LONDON Jan 16—V[illegible] Monson chief of the Mormon missionaries in England has addressed a letter to Home Secretary Churchill seconding the request of certain English clergy that the Home office investigate Mormonism in this country. Monson alleges that the Mormons are being persecuted.

The anti Mormon campaign was organized recently at Liverpool by the Bishop of Liverpool and other prominent churchmen. The object was the expulsion from England of Mormon missionaries who were charged with sending many recruits chiefly girls to the United States. The crusade has been taken up by the clergy of other cities.

DECOTO MASONIC HOSPITAL READY

New Building, Gift of Coleman, to Be Dedicated Saturday.

DECOTO, Jan 16—The new hospital building of the Masonic home, the gift of Edward Coleman, grand treasurer of the order which has been built at a cost of $30 000 will be formally dedicated Saturday, January 21 the exercises beginning at 1 30 o clock. An elaborate program has been prepared in which many of the high officers of the order will take part.

The grand orator of the day will be Judge Alfred G Burnett of the appellate court. The presentation of the building will be made by Edward Coleman and the speech of acceptance will be made by Judge W S Wells president of the board of trustees. The dedication exercises will then be held with Grand Master Dana R Weller of Los Angeles in charge. A special train carrying a large number of members of the order will leave Oakland at 10 39 o clock Saturday morning.

The hospital is a one-story structure constructed of brick and occupies a ground space of 50 by 100 feet. The children's dormitory which formerly occupied the third story of the main building has been transformed into 16 rooms for occupancy by residents of the home. This has increased the accommodations to permit the vacating of one of the cottages and this cottage will be used as a clubhouse.

The main stairway has been inclosed and the interior of the main building has been retinted and repainted. A new steam heating plant has been installed. It is estimated that all the improvements will require an expenditure of $75 000.

NEGRO MAKES GIFT OF $1000 TO Y. M. C. A.

CHICAGO Jan 16—James H Tilghman an employe of the Chicago Telephone Company yesterday made the largest single donation received from a negro for the erection of the $150 000 African Y M C A building. At the afternoon meeting of the fifteen teams of collectors that have been busy during the last nine days Tilghman announced his gift of $1000.

The total raised during the campaign exceeds $43 000 leaving but $6500 to be raised to take advantage of the offers of Julius Rosenwald and N W Harris each of whom pledged $25 000 conditional upon other pledges aggregating $50 000.

BEER SEEMS TO BE POPULAR IN NEW YORK

NEW YORK Jan 16—Greater New York consumed 8 000 000 barrels of beer during the year 1910 according to a government report just made public. This is an average of about two barrels a year for every man woman and child in the city.

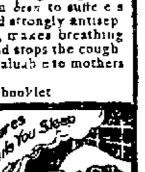

Throughout the United States the year's consumption reached a total of nearly 60 000 000.
